## Galatians 2:11-21

Big Idea: The race problem, though complex, has a simple solution that is more difficult to apply if “Grace” is missing, misunderstood and mishandled.

### A. The Theological foundation of Paul’s Theology – 3 Pillars

1. A quick survey of the book of Galatians will reveal the fact that Paul believed in the Supremacy of the gospel.
2. Paul also believed in the Sacredness and worth of all human beings.
3. Paul believed in the Strength and witness of the local church.

B. The question and task for us today is; how do we do theology in a fast paced, technologically driven world that renders us faceless, heartless and hopeless?

1. Paul’s method must become ours.
2. Paul’s message must become ours.
3. Paul’s motivation and obsession must become ours.

C. What should this look like today, tomorrow and in the days ahead? How do I live out my faith?

1. The personal life – Be Right with God
2. The professional life – Be Ready to Share
3. The people life – Be Real and be Free
