

THE

KNOWER DIMENSION

SELAH SUNDAY

The Know Dimension

QUESTIONS:

1. In Philippians 2:19-24, can you explain a little further why this particular verse, "... just as soon as I see how it will go with me,..." stuck out to you so much? Is part of it because you think Paul should have already KNOWN that The Lord was going to take care of him no matter how it went with him so therefore, he should have sent Timothy anyway?
2. You talked about knowledge being 'embedded and embodied'- How can we actually walk out what we know so it becomes who we are, not just information in our heads?
3. In seasons where we feel like Paul—faithful but still suffering—how do we discern whether we're truly trusting God or just enduring without real peace?
4. Knowing that God works outside of time, and we exist in time, how do we keep from being disappointed as we stand on the promises that God gave us when we've been believing for manifestation over a long period of years?
