

LUKE Wk – 5 Thoughts from chapters 9 & 10

1..Before coming to class make a list of 4 things that you “would like to have more time for” in your own personal life.

They can/should be things either **material or spiritual**; (sports, hobbies, Bible study, prayer, visitation, etc)

2. List several other things that you feel compelled to do, but which take time away from those things you just listed as being very important.

3. Read chapters 9 & 10. Our main focus this week ... a continuation from last week's study re' weeds and their affect on yield... and we will look at how that study applies to this week in #9: verses 23-26 and verses 57-62

4. Following that discussion be prepared to share and/or discuss a segment from either chapter 9 or 10, that we will not have had time to cover. This may be in the form of a question you have re' certain verses, or as you have seen its application in your own life, or the life of someone you know.

5. Through out our study in Luke so far, we have looked at several parables and several miracles. The parables are about things Jesus said. The miracles are about the things that Jesus did. Love was there in all that he **did** and **said**. May we strive to make sure that love is there in all that **WE** do and say.

6. Most have not submitted there response to “The greatest question in the book of Luke” “*Pssst, It was mentioned in todays readings and will be repeated again. If you didn't see it this week, re-read the chapters again – it's there.*” Feel free to submit several options for us to consider at the end of our study.
