## Youth Detention Center in Marietta – Weekly Bible Study – Ted Myers – 15 years

Ted Myers (pictured below) is a long term faithful member of Sunday 10. For **FIFTEEN** years, Ted has gone faithfully **EVERY** Tuesday night to this Bible study at the Marietta Youth Detention Center as part of a local ministry. We have had some other Liberty men & women participate in this ministry but Ted has been the long term faithful one.

Young people at this YDC are usually there for 6-24 months and are in the 13-16 age range. The ministry gets multiple opportunities each year to interact with the parents and gets to build relationship with the young people.

This is a picture perfect situation for us to reach out to these young people and their parents. With our Multi-Generational vision we have the people and the resources to help these families once these young people are released.

The good news is that these young people are fairly well rehabilitated and we will have **fairly strong relationships** once they are released. Even with that, I recommend some boundaries for safety. I recommend that:

1. We will be very firm that our ministry to the teens is exclusively for those families where the **parents** are willing to get connected and be involved in Liberty Church. The whole vision of this ministry is to SUPPORT the parents in Multi-generational ministry – NOT to replace them. We have learned from painful experiences that trying to help troubled youth without the parents help often backfires.
2. I recommend that we keep our focus on these released teens attending **MAIN SERVICE**, rather than Youth Group. They need adult interaction and we want to make sure that they are safe young people before we take any chances of them being bad influences among the Youth.
