

ADULTING

DISCUSSION QUESTIONS

Read Ephesians 2:11 - 3:13 together.

If you could have freedom and confidence in any area of life, what aspect of your life would you seek it in? What would that freedom and confidence enable you to do?

What leads you to believe you don't already have freedom and confidence in that area?

What has held you back in the past from approaching God with freedom and confidence? What circumstances allow the lie that you can't approach him with freedom and confidence to return?

For those who have approached him with freedom and confidence, could you share with others what that looks like for you?

How can pride be destructive in our mission to helping people find their way back to God?

How can we support one another this week as we approach God with freedom and confidence?
