The Economy of the earth runs on the positions of people and on money,

Yet the real Economy of the heavens runs on the Person of God and the prayers of His people.

**PRAYER
TRANSFORMATION**

Prayer Transformation is the truly life-giving change that occurs when we seek God's face instead of seeking God's hand.

Applications

1. In your prayer experience so far, describe a time when you have been changed by prayer.
2. Ask your prayer partner or a friend to share their “changed by prayer” story.
3. Ask the Lord to give you the desire to seek His face. Ask this for our church also.

Prayer Partner Connection

- The idea is to grow in our faith and our prayer life as we grow closer as a church.
- The 15 minutes a week shouldn't be used to review a long list of prayer requests, but instead should be used to connect with one another personally and ask important questions like, "What is God leading you through?" "What is God teaching you?" "How are you seeking God in your life?"
- The goal is not the width of our prayer (praying for every different thing under the sun) our goal is the depth of our prayer, earnestly seeking God.
