

Dr. Jim Schettler

## Four Pillars of Creationism

Genesis 1:1 “In the beginning God created...”

### 1. Definitions

**Science** – The very \_\_\_\_\_ of the scientific method is based on the origin of the universe. Therefore, evolution cannot be an established fact but a \_\_\_\_\_ like creationism. Our faith should be based on the clearest scientific facts.

**Microevolution** – Microevolution describes the very small \_\_\_\_\_ changes (mutations and variations) that scientists find over time that occur within a \_\_\_\_\_. Genesis 1:24 (ie. dogs, fish, cats, cattle, adaptation within a species)

**Macroevolution** – Macroevolution is the theory that claims untold random \_\_\_\_\_ somehow provide survival advantages over long periods, producing an entirely new \_\_\_\_\_.

Mutations (99.9% of the time) are genetic \_\_\_\_\_ that cause harm to the species. They are also very rare.

## 2. Design

*I will praise thee; for I am fearfully and wonderfully made: marvellous are thy works; and that my soul knoweth right well. My substance was not hid from thee, when I was made in secret, and curiously wrought in the lowest parts of the earth. (Psalm 139:14-15)*

*For by him were all things created, that are in heaven, and that are in earth, visible and invisible, whether they be thrones, or dominions, or principalities, or powers: all things were created by him, and for him: And he is before all things, and by him all things consist. (Colossians 1:16-17)*

“The chance that all the \_\_\_\_\_ of the individual could just happen, is a statistical monstrosity.”

– *George Gallup*

The human eye...

Only a supernatural, \_\_\_\_\_ designer could have produced an orderly, detailed, diverse, complex \_\_\_\_\_.

Scientists by the \_\_\_\_\_ are coming to believe that \_\_\_\_\_ chance could not have developed the universe we live in.

A “big bang” could not have \_\_\_\_\_ what we can observe. Only nothing can come from nothing.

## 3. Dating

*And God saw every thing that he had made, and, behold, it was*

*very good. And the evening and the morning were the sixth day.*

(Genesis 1:31)

Fossils are our \_\_\_\_\_!

Different animal fossils found in different \_\_\_\_\_

No transitional forms found

Fossil records reveal that life appeared \_\_\_\_\_  
in great diversity, complexity and abundance.

Catastrophic, not \_\_\_\_\_ change (i.e. Mount St.  
Helens, 1980)

The evolutionists' math formula for the universe:  
time + \_\_\_\_\_ = everything

Second \_\_\_\_\_ of thermodynamics

4. **DNA** – the \_\_\_\_\_ of God governing the  
creation of life.

The double-helix structure of the genetic code (DNA) was  
discovered in 1953.

A molecule that stores enormous amounts of encoded  
hereditary information that \_\_\_\_\_ the  
growth, repair, and reproduction of all life.

The chance that DNA molecules would develop without a designer is approximately \_\_\_\_\_!

All humans come from the same parents.

The complexity of the “simple” cell \_\_\_\_\_ the notion that life started from simple to complex. Hebrews 11:3

## 5. Delight

*Happy is he that hath the God of Jacob for his help, whose hope is in the Lord his God: Which made heaven, and earth, the sea, and all that therein is: which keepeth truth for ever: (Psalm 146:5-6)*

*Thou art worthy, O Lord, to receive glory and honour and power: for thou hast created all things, and for thy pleasure they are and were created. (Revelation 4:11)*

Psalm 8:3-8

- He has a \_\_\_\_\_ for us.
- He has a \_\_\_\_\_ for us.
- He has \_\_\_\_\_ for us.
- He has \_\_\_\_\_ for us.
