

The background is a light olive green color. It features two lighthouses on rocky islands, one on the left and one on the right. The lighthouses are tall, cylindrical structures with a lantern room at the top. There are small houses or buildings at the base of each lighthouse. The sky is filled with stylized, wavy clouds and several birds in flight. The overall style is reminiscent of a vintage illustration or a decorative poster.

3 Elements a Deeper Faith Involves When Crisis Comes

- 1. Growing Deeper in Your Faith Involves Crisis and Addressing Your Interior Life in the Middle of It**
- 2. Growing Deeper in Your Faith Involves Rejoicing in the Lord in the Middle of Crisis**
- 3. Growing Deeper in Your Faith Involves Looking to God for Your Strength to Get You Through Any Crisis**

“The prophet has come to a place of joy because his God has come to him. As he wrestled with God in complaint and prayer, God has opened him up to the wonder of his ways. God has opened Habakkuk not *to* faith, as the prophet already believed his God, but ***to a fuller, richer faith***. Habakkuk trusted in God only to discover a deeper trust in and through suffering and prayer. He learned what it is to walk by faith and not by sight.” - Heath Thomas
