

Truth is Rising Forth

I love to love You, Lord
I love to serve You, Lord
And lift my hands to reach
Others for Your love

I love to praise You, Lord
I love to trust You, Lord
For You are leading me
You're faithful and good

There's so much joy in You
You're tremendously powerful
And You have the end in mind
I stand in that
I stand in that

I love to love You, Lord
I love to sing with joy
And remember all the things
You've done for me

I love to praise You, Lord
I love to pray to You
You hear my cries
You never turn away

There's so much joy in You
You're tremendously powerful
And You have the end in mind
I stand in that
I stand in that

There will be much celebration
You have everything in control
I will be steadfast, ready
Reaching others for Your love

There will be much celebration
You have everything in control
I will be steadfast, ready
Reaching others for Your love

You're tremendously powerful
And You have the end in mind
We stand in that
We stand in that
Truth is rising forth
We stand in that
Truth is rising forth
We stand in that
There will be much celebration
You have everything in control
There will be much celebration
You have everything in control
We stand in that
Truth is rising forth
There will be much celebration
You have everything in control
We stand in that
Truth is rising forth
