

Move Mountains

Faith in Your love  
That's what I'm holding to  
Nothing else sustains me  
Nothing else prevails

Faith in You, Jesus  
You said moves the mountains  
Let the mountains move  
Let my faith move mountains with You

When will You move the mountains, Lord?  
When will You make the mountains fall?  
The mountains You created fall  
Into the ocean and all that we see  
All of this will be no more

Faith in Your love  
Is what I'm holding to  
Nothing else sustains me  
Nothing else prevails

Faith in You, Jesus  
You said moves the mountains  
Let the mountains move  
Let my faith move mountains with You

When will You move the mountains, Lord?  
When will You make the mountains fall?  
The mountains You created fall  
Into the ocean and all that we see  
All of this will be no more  
When will You move the mountains?

Make our faith true  
Genuine in You, Lord  
For our faith overcomes this world  
To stand before You as overcomers  
We hold to Your love  
You died for us  
Yes, You died for us

When will You move the mountains, Lord?

When will You make the mountains fall?  
The mountains You created fall  
Into the ocean and all that we see  
All of this will be no more  
When will You move the mountains, Lord?  
When will You make the mountains fall?  
Make them fall

Faith in Your love  
Is what I'm holding to  
Nothing else sustains me  
Nothing else prevails  
Only You

Faith in Your love  
Is what I'm holding to  
Nothing else sustains me  
Nothing else prevails  
Only You  
My faith in You, Jesus  
My faith in You, Jesus  
Only You
