

Your Loving-kindness

Your loving-kindness draws me to You
When all around me hurts

Your loving-kindness draws me to You
When all around me hurts

You pour Your river of life on me
You pour Your river of life on me
And I begin to see the hope
Standing before me
Life, You spoke to me

Your loving-kindness draws me to You
When all around me hurts

Your loving-kindness draws me to You
When all around me hurts

You died for me
You rose for me
You're glorified in heaven for me
I believe, now I see

You died for me
You rose for me
You're glorified in heaven for me
I believe, now I see

Your loving-kindness draws me to You
When all around me hurts

Your loving-kindness draws me to You
When all around me hurts

You are where I come
When the sadness around me is strong
You are where I come
When depression weights down

Your loving-kindness draws me to You
When all around me hurts
Me hurts
Me hurts
Me hurts
