

Week 11- “Investing In The Next Generation”

Growth in Church is a wonderful thing, however when growing is the main focus then a Church can feel messy. In this series we talk about the incredible growth we are experiencing at RockPoint and how as a Church we don’t want growing to taint the mission to be a safe community where anyone can discover,develop, and deepen a relationship with Jesus. In this week’s message, we look at a Psalm David wrote describing that He found his deepest longings in God. This Psalm speaks to an incredible reality that when we find our value in God we natually want to help the next generation discover the Gospel for themselves.

Read Psalms 145

1. Why do you think you are wired to long for security, purpose, and fulfillment?

2. David found his deepest longings in God. What does it say about God that he made a way for you to find your deepest longings in Him?

3. What does it say about God’s love for you that His Mightiest act was the cross?

4. What does the cross say about your value?

5. How does a secure identity in Christ help you as you walk through this broken world?

6. This Psalm speaks to what those who find their value in Christ do. How does the Gospel inspire how you share the Gospel with the next generation?

7. What are practical steps you can take to share the Gospel with the next generation so they can walk securely in an insecure world?

The mightiest act that God ever did was displayed on the cross. When we find our security, purpose, fulfillment in God we can't help but want to share the good news with the next generation. That is what we as a church are called to do: to be a safe community where anyone, adults and children, can discover, develop, and deepen a relationship with Jesus.
