

Israel's Sinful Cycle

Materials

- ☐ Picture circles and arrows (following page)
- ☐ Plain paper plates (9-inch or larger)
- ☐ Paper fasteners
- ☐ Crayons or markers
- ☐ Glue sticks

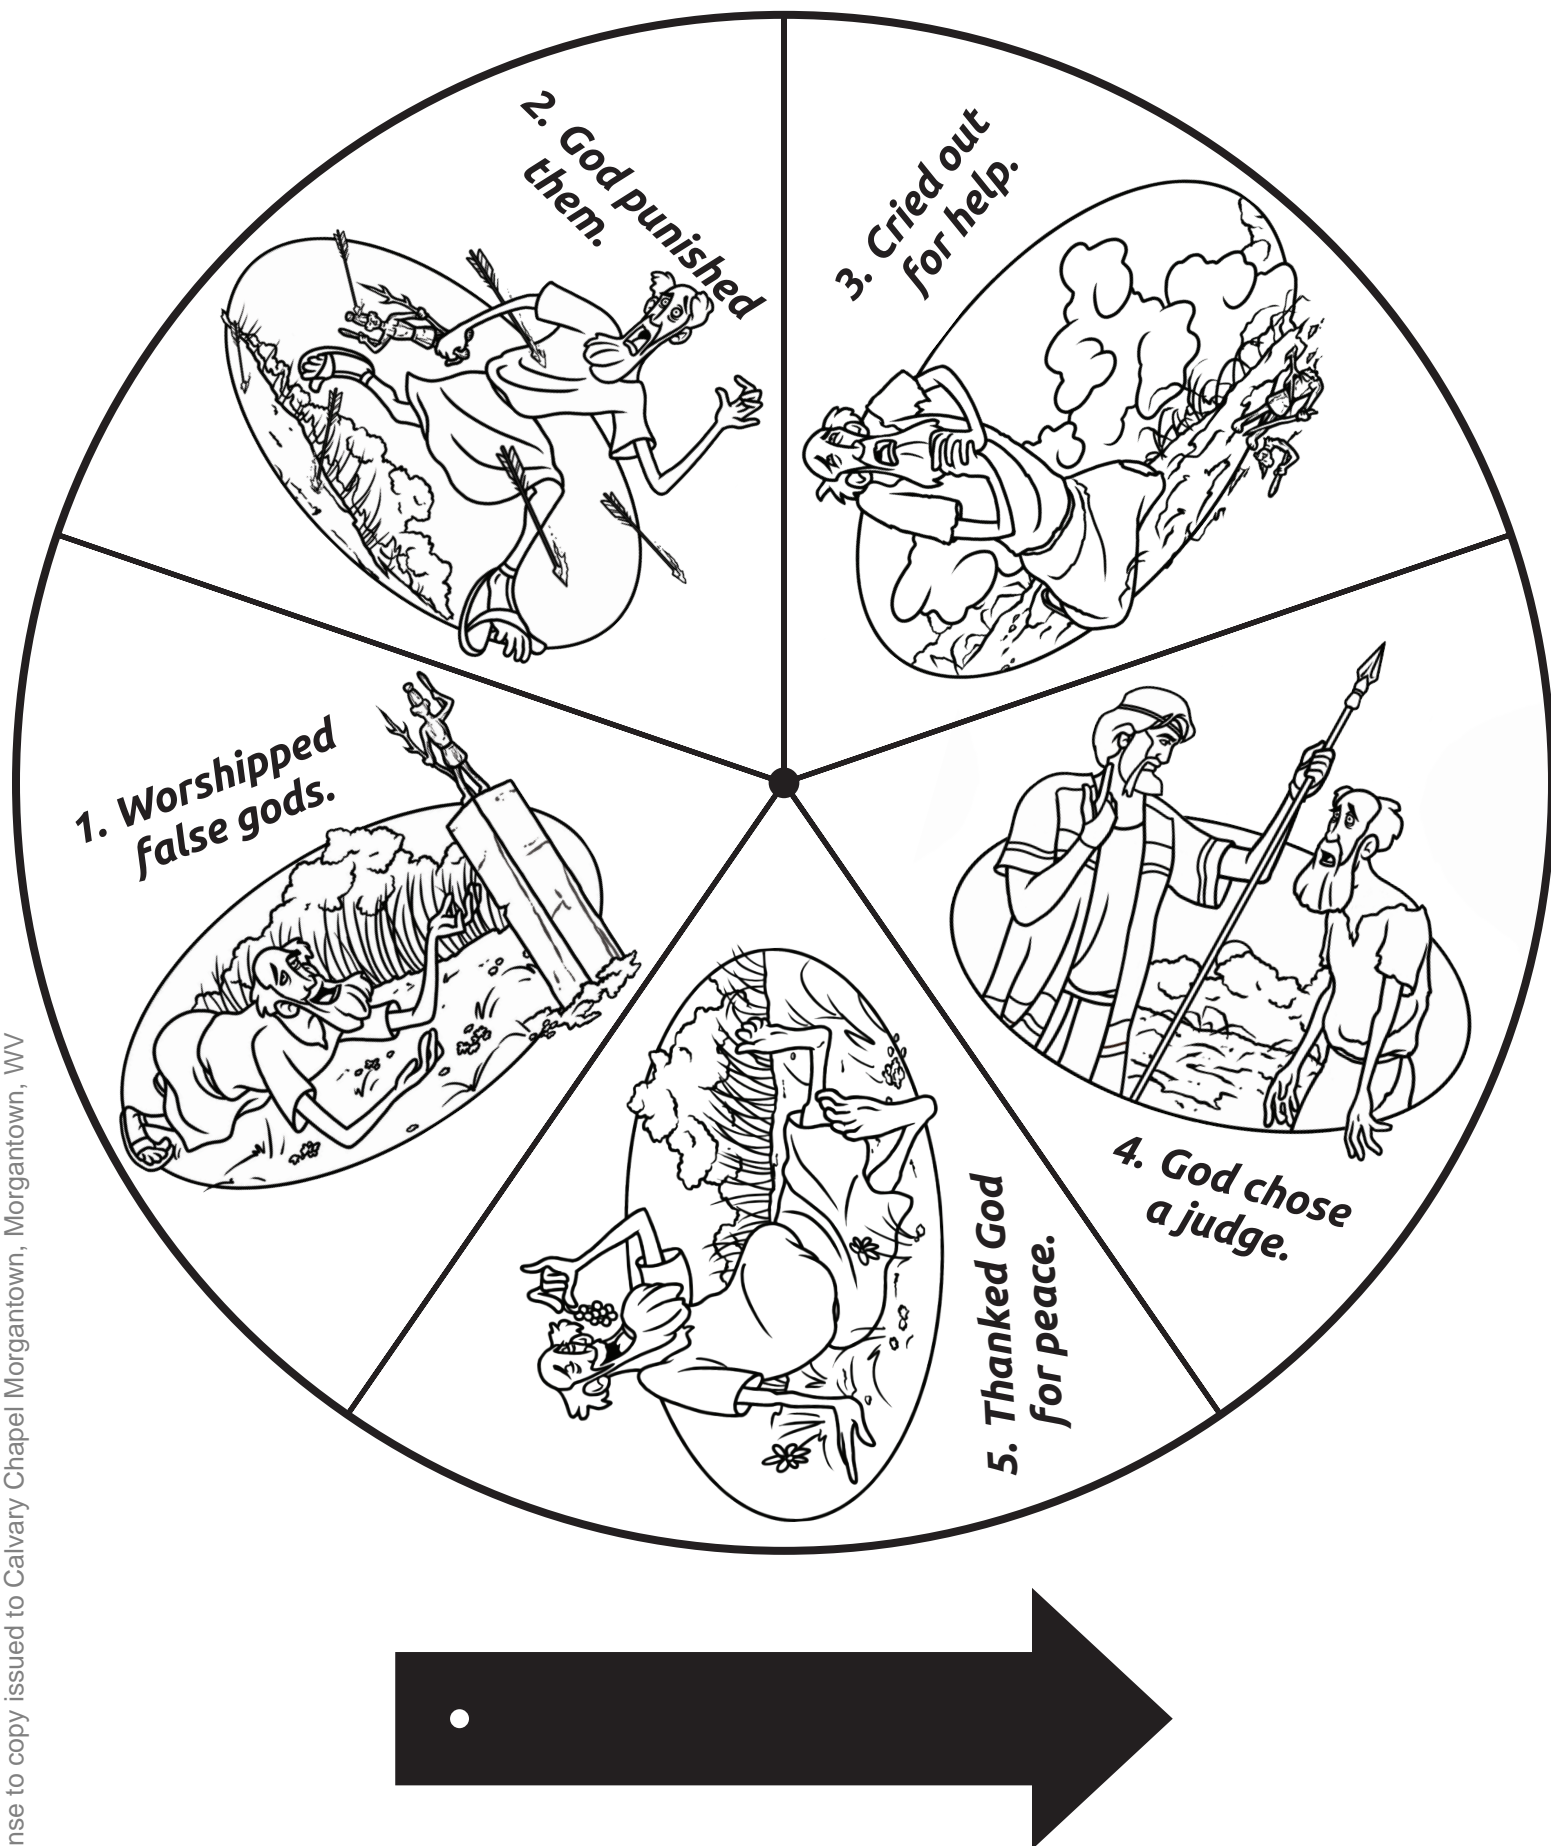

Instructions

Print and cut out one picture circle and one arrow for each student or have students do the cutting. Have students color the pictures. Glue the picture circle onto the middle of the paper plate. Line up the dots in the center of the picture circle with the dot on the arrow and attach them with a paper fastener through the plate.

Suggested Discussion

Have students turn the arrows to each picture and review the cycle the Israelites repeated for 300 years.

It's very sad that the Israelites would keep doing the same sins over and over. But God was faithful to always be there when they cried out for help. Their God is the same God we love and worship, and he is still faithful to listen to our prayers, too.

Print and cut out one circle and arrow for each student.
