## Materials

- ☐ My Psalm of Praise activity sheets (next page)
- ☐ Colored pencils or markers

## Instructions

*Print one activity sheet for each student or group of two. Have students use the Word Bank or their own words to fill in the blanks and create their own psalm of praise. Then have them illustrate their psalm in the space below.*

## Suggested Discussion

- ? Who would like to read their psalm of praise? Allow students to share their psalms and show their illustrations.

A psalm is like a poem set to music—a song. And we’ve learned today that the psalms in the Bible are meant to help us turn our thoughts toward God. We can use psalms that are already written to help us worship God, as well as using our own words to praise him for who he is and for all he’s done.
