

Exodus 15

Bible Study Guide • Oct 1, 2025

Recap!

In chapter 14, the children of Israel were faced with two things: fear and the future. They feared being captured by the Egyptians, yet they faced the future as the Lord delivered them through the Red Sea in a miraculous way. The catch is, they did not expect God to move in such a way. When looking at the route God took them, He was intentional about taking them the long route to perform a miracle no one had seen (Exodus 13: 17-18). In this lesson, we will discuss the concept of BECOMING.
