

Seeing God in Everything

Psalm 19.1-6

Creation Points to God

- Creation points us to the Creator
- Creation both speaks and doesn't speak
- Creation is under God's rule
- Creation teaches us about God

The Word of God is the lens that gives clarity to the God we meet in creation.

- God's Word is a constant source of joy that guides every aspect of life.
- God's Word shows us a sweeter way forward as it warns us of the paths to avoid.

Creation and the Word teach us about ourselves

- There is value in both warning and reward in our path.
- Understanding God and God's ways produces humility.
- We have in God our creator the one who redeems us.
