4. God _____ water. Ex. 17

Discussion Questions:

- In Exodus 5:2, Pharaoh asks, "Who is the Lord, that I should obey his voice?" How do the subsequent ten plagues directly answer Pharaoh's challenge and act as a judgment on Egypt's gods?

- Other than water, what are other illustrations of God's power, protection and provision?

- In Exodus 14 God led the Israelites to a difficult place where they were out of other options to escape Pharaoh. What can we learn about God from this?

- In Exodus 15:22, the people expected water after three days and then found only bitter water. How do you react when a path God seems to be leading you down turns out to be painful or disappointing?
