**b. The natural body was created to heal itself.**

*There is healing potential in your body!*

*“Your body’s natural tendency is to heal itself. When we’re in a state of good health, if we cut ourselves, get bruised or have a broken bone the body starts healing immediately. If we’re exposed to infection our immune system deals with it.”*

**3. Personal Example:** When I said NO to a lung biopsy:  
*Saying NO to unnecessary procedures.*

**4. Always ask God for guidance regarding all surgeries, biopsies, and other procedures.**

IV. **Closing Thought:** *I have the Holy Spirit residing in me. He is my teacher and guide. I choose to depend upon His wisdom to show me the path of healing for my life. Through His wisdom, I will know what to do, when to do it and how to do it. I will know when to say yes and when to say no. His leading will guide me into the healing that God has provided for me.*
