#### Key Talking Points:

- Arizona Republican Party Chair, Jeff DeWit, resigned after an audio tape surfaced and went viral on social media of him trying to bribe Kari Lake to stop her campaign.
- On the leaked tape DeWit asked lake to take a pause and step aside from politics for two years while offering her a job on behalf of the “people from back east.”
- Lake responded they are going to have to kill me to stop me.
- DeWit told lake that he was not sure trump could win again and that it’s not about control or agenda, its just about the ability to raise money to win and even on their end (meaning the person running for office), and what makes them the most money.
- Then DeWitt appears to ask lake to name a price at which she can be bought, and lake responded, “This is not about money. This is about our country.”
- Lake tweeted after the leaked conversation: “I can’t be bribed, I can’t be bought, I’m only in this for my children and the state of Arizona, any contribution you could make to my campaign would be deeply appreciated.”
- Lake is running for senate in 2024. God bless her for standing firm on her beliefs and ethics and exposing the deep state.

**Article Link:** <https://www.thegatewaypundit.com/2024/01/alex-soros-tweets-bullet-hole-47-direct-violent/>

#### Key Talking Points:

- In other election news, the meeting at the world economic forum just ended and many of the speeches and conversations stemmed around President Donald Trump likely getting elected this year.
- Yuval Noah Harari, advisor to the founder of the WEF, Klaus Schwab, actually said that trump getting elected would be the death blow to global government and their plans.
- Now, per the gateway pundit, Alex Soros, son of George Soros—the largest donor to the democrat party, tweeted out a bullet hole and 47 dollars in cash that many believe was a direct violent threat to President Trump.

- President Trump is up in the polls and just won both the Iowa and New Hampshire primaries, and his most formidable challenger, gov. Ron DeSantis, dropped out of the race and endorsed him. When he wins the presidency, he would be the 47th president.
- The global elites are in full blown panic mode. The caption above Alex Soros threatening tweet read last year, the crime and inflation largely evaporated. So did the leading theories about what had caused them.
- However, according to a Gallup poll 77% of Americans believe there is more crime in the U.S. than a year ago and Donald Trump is skyrocketing in the polls and among minority voters.
- Many believe this is what pushed the billionaire leftist, who has visited the white house numerous times under the Biden administration, to tweet out a bullet hole and the number 47, which many are calling a clear threat to President Donald Trump and his success so far during election year.

- Newsmax reports this footage provided by Rep. Thomas Massie, shows the then unidentified person approaching a metropolitan police dept. Vehicle that was parked at the Democratic National Committee's parking ramp driveway.
- The vehicle was part of then vice president elect Kamala Harris's motorcade.
- Darren Beattie and Tucker Carlson discuss how unconcerned the secret service and metro pd are about the pipe bomb and about their own safety and the safety of Kamala Harris. They also clearly violated bomb threat protocol.
- The secret service even allowed children to cross the street toward the pipe bomb several minutes after being told it was under the park bench.
- Bomb robots were eventually called to diffuse the bomb. Tucker tweeted that it seems likely that government officials were involved in planting pipe bombs in Washington, D.C. three years ago, as part of an effort to keep Donald Trump from running for president again, but the truth is coming out.

**Article:** THE JIG IS UP... EXCLUSIVE: Local Reporter Describes Election Expert Halderman Breaking into Dominion Voting Machine and Changing Vote Totals During His Georgia Testimony

**Article Link:** <https://www.thegatewaypundit.com/2024/01/gig-is-up-exclusive-local-reporter-describes-election/>

### Key Talking Points:

- Speaking of the truth coming out, election expert Alex Halderman just broke into a dominion voting machine and changed the vote totals during his Georgia testimony to show how easy it was to do.
- The gateway pundit reports on Friday in a federal court in Atlanta University of Michigan professor of computer science and engineering, J. Alex Halderman, testified about the dominion voting machines used in the Georgia elections in 2020.
- To demonstrate their vulnerability, he successfully hacked the dominion voting machine and changed the tabulations in front of U.S. district judge, Amy Totenberg, and the entire courtroom using only a pen.
- You cannot make this up. Confirming what Mike Lindell, CEO of my pillow has been saying for years. This case is part of a lawsuit by election integrity activists seeking to remove voting machines in favor of paper ballots.
- In June of 2023 the federal district court for the northern district of Georgia unsealed a 96-page Halderman report which was an analysis of ballot marking devices and their clear vulnerability to hacking.
- Georgia Sec. of State, Brad Raffensperger, had been hiding this report from the public for two years.
- The report confirms without a doubt and now demonstrated in the courtroom during the trial, that dominion software is vulnerable and can without a doubt be hacked.

## IN THE NEWS (TOPIC 5 OF 5) EXPERTS CONFIRM GENESIS 19, BIBLICAL CITY DESTROYED BY EXPLOSION 1,000 TIMES LARGER THAN ATOMIC BOMB

**Article:** Experts Confirm Genesis 19, Biblical City Destroyed by Explosion 1,000 Times Larger Than Atomic Bomb

**Article Link:** <https://www2.cbn.com/news/world/experts-confirm-genesis-19-biblical-city-destroyed-explosion-1000-times-larger-atomic>

### Key Talking Points:

- Experts confirm genesis 19 in an amazing archeological find.
- CBN news reports archeologists and theologians are working together to analyze recent discoveries of what happened to the ancient city of Sodom found in the Old Testament.
- The city's sudden disappearance about 3,600 years ago has been a mystery to archaeologists for years. In the city's ruins, there are no signs of an extended military siege or conflict. However, other signs point to a different catastrophic cause.
- Dr. John Bergsma, a professor of theology at Steubenville, Ohio Franciscan University, says one thing that drew his interest was the marks of extreme heat left on pottery fragments, human skeletal remains, and other artifacts.
- This type of heat damage could possibly be from a giant asteroid exploding above the city similar to what genesis 19:24-25 describes in the Old Testament, which says, "Then God rained brimstone and fire down on Sodom and Gomorrah—a river of lava from god out of the sky!—and destroyed these cities and the entire plain and everyone who lived in the cities and everything that grew from the ground."
- They found traces of trinitite which adds weight to the theory of a high energy event, like potentially an asteroid impact.
- Archeologists found "massive evidence that a huge heat blast from the sky...incinerated these twin cities on the Jordanian side of the river."

- One thing they know for certain per Steven Collins who is the dean of the college of archeology at trinity southwest university and the lead archeologist at the site is that the explosion expended even more energy than when the first atomic bomb was dropped on Hiroshima.
- All of this evidence pointing that an act of God did in fact destroy the city of Sodom, judgment for their out-of-control sinful behavior, confirming once again what is written in the pages of the Bible.
