#### **Key Talking Points:**

- Squatters have taken over 1200 homes in Atlanta, Georgia and even transformed one home into an illegal strip club.
- The gateway pundit reports police response to evict the squatters is so delayed that some desperate homeowners have actually bribed the intruders to leave, according to the New York post.
- Whole neighborhoods have been ruined by the horde of squatters. Local home-cleaning company manager Matt Urbanski emphasized the severity of the crisis, saying, “I’d be terrified in Atlanta to lease out one of my properties.”
- He should know, as he cleans out homes for “corporate landlords,” according to the post. Not only does Urbanski have to clear out squatters’ belongings, but one of his employees was also shot following his recent attempt to get squatters off private property.
- This is a symptom of the lawlessness that has gripped the country in recent years and to make matters worse, laws often favor the squatters, making it extremely difficult for homeowners to get rid of them.
- If this is allowed to continue, the problem will only get worse as it spreads.

- Israeli government leaders accuse the un organization of using American tax dollars to fuel hatred and terror against the Jewish state.
- Israeli Knesset member Sharren Haskel told CBN news, “UNRWA is an organization of the United Nations that is a complete cover up for HAMAS activities. Hamas has taken over this organization. They

are inciting and educating children to violence and hatred. They're teaching them martyrdom, how to be child soldiers. That's their education system. It's based on radical Islam."

- Dr. Einat Wilf stated that UNRWA is not an organization that provides education and welfare and health care saying, "an organization that has two deep roles: to ensure that the conflict from 1948 remains an open case and therefore that there is a permanent question mark on Israel's very existence, creating generation after generation of Palestinians who believe that one day Israel will not exist."
- Some are calling on the funding for UNRWA to be brought to a halt.
- Knesset member simcha Rothman stated, "So the fact that the UNRWA gets money from the U. S., from other countries as a donation and this money supports terror, actively supports terror, needs to stop. There is no excuse for educating for terror. There is no excuse for facilitating the next October 7th."
- Please keep Israel in your prayers and pray that organizations that support terrorists are brought down.

## **In the News (Topic 3 of 3)** INTERNATIONAL PANDEMIC TREATY WOULD FUND ABORTIONS AND CURTAIL FREEDOMS

**Article:** 'Disease X': International Pandemic Treaty Would Fund Abortions and Curtail Freedoms, Critics Say

**Article Link:** <https://www2.cbn.com/news/us/disease-x-international-pandemic-treaty-would-fund-abortion-and-curtail-freedoms-critics>

### **Key Talking Points:**

- CBN news reports World Health Organization leaders are warning about "Disease x," the temporary name for the next pathogen that will "ravage the globe in the future."
- WHO director-general Tedros Ghebreyesus said last month that another global pandemic, possibly much deadlier than the covid-19 pandemic, could be here sooner than we think. With that backdrop, he's urging member countries to approve a so-called "Pandemic Treaty" touted as a way to prevent, prepare, and respond to the next worldwide pandemic.
- The lengthy document is full of rules and regulations giving the WHO expanded authority. At a news conference in Washington, D.C., some conservative policy leaders and congressional leaders expressed major concerns about the draft, starting with WHO's apparent submission to Chinese authorities.
- The agreement calls for wealthier nations, such as the United States, to heavily fund general health care in developing countries, which likely means late-term abortion access worldwide funded by U.S. taxpayer dollars.
- The family research council's Tony Perkins said the treaty is a progressive power grab that threatens U.S. sovereignty. This is all set to go into motion in May.
