2. THE DANGER: Losing Influence and Momentum

- 2 John 8

“The unity of the church is supposed to be a sign to the powers of the world that Jesus is Lord and they are not. In an age where churches split over politics, theology, and style, the real scandal isn’t difference – it’s indifference. The early Christians risked everything to show the world reconciliation was possible. But now, most believers simply settle for attending the version of church that feels most comfortable. The world looks at a divided church and thinks, ‘We don’t need to pay any attention to them.’”
