

the world is
going to be
more chaotic

sometimes life is
going to feel like
an earthquake or
a storm

we can find sure
foundation to
build on even in
an earthquake
(Psalm 75.3)

In a storm, we
can walk on
water as long as
we keep our eyes
on Jesus instead
of the waves

God steps into our storms of today

And builds stepping stones of faith

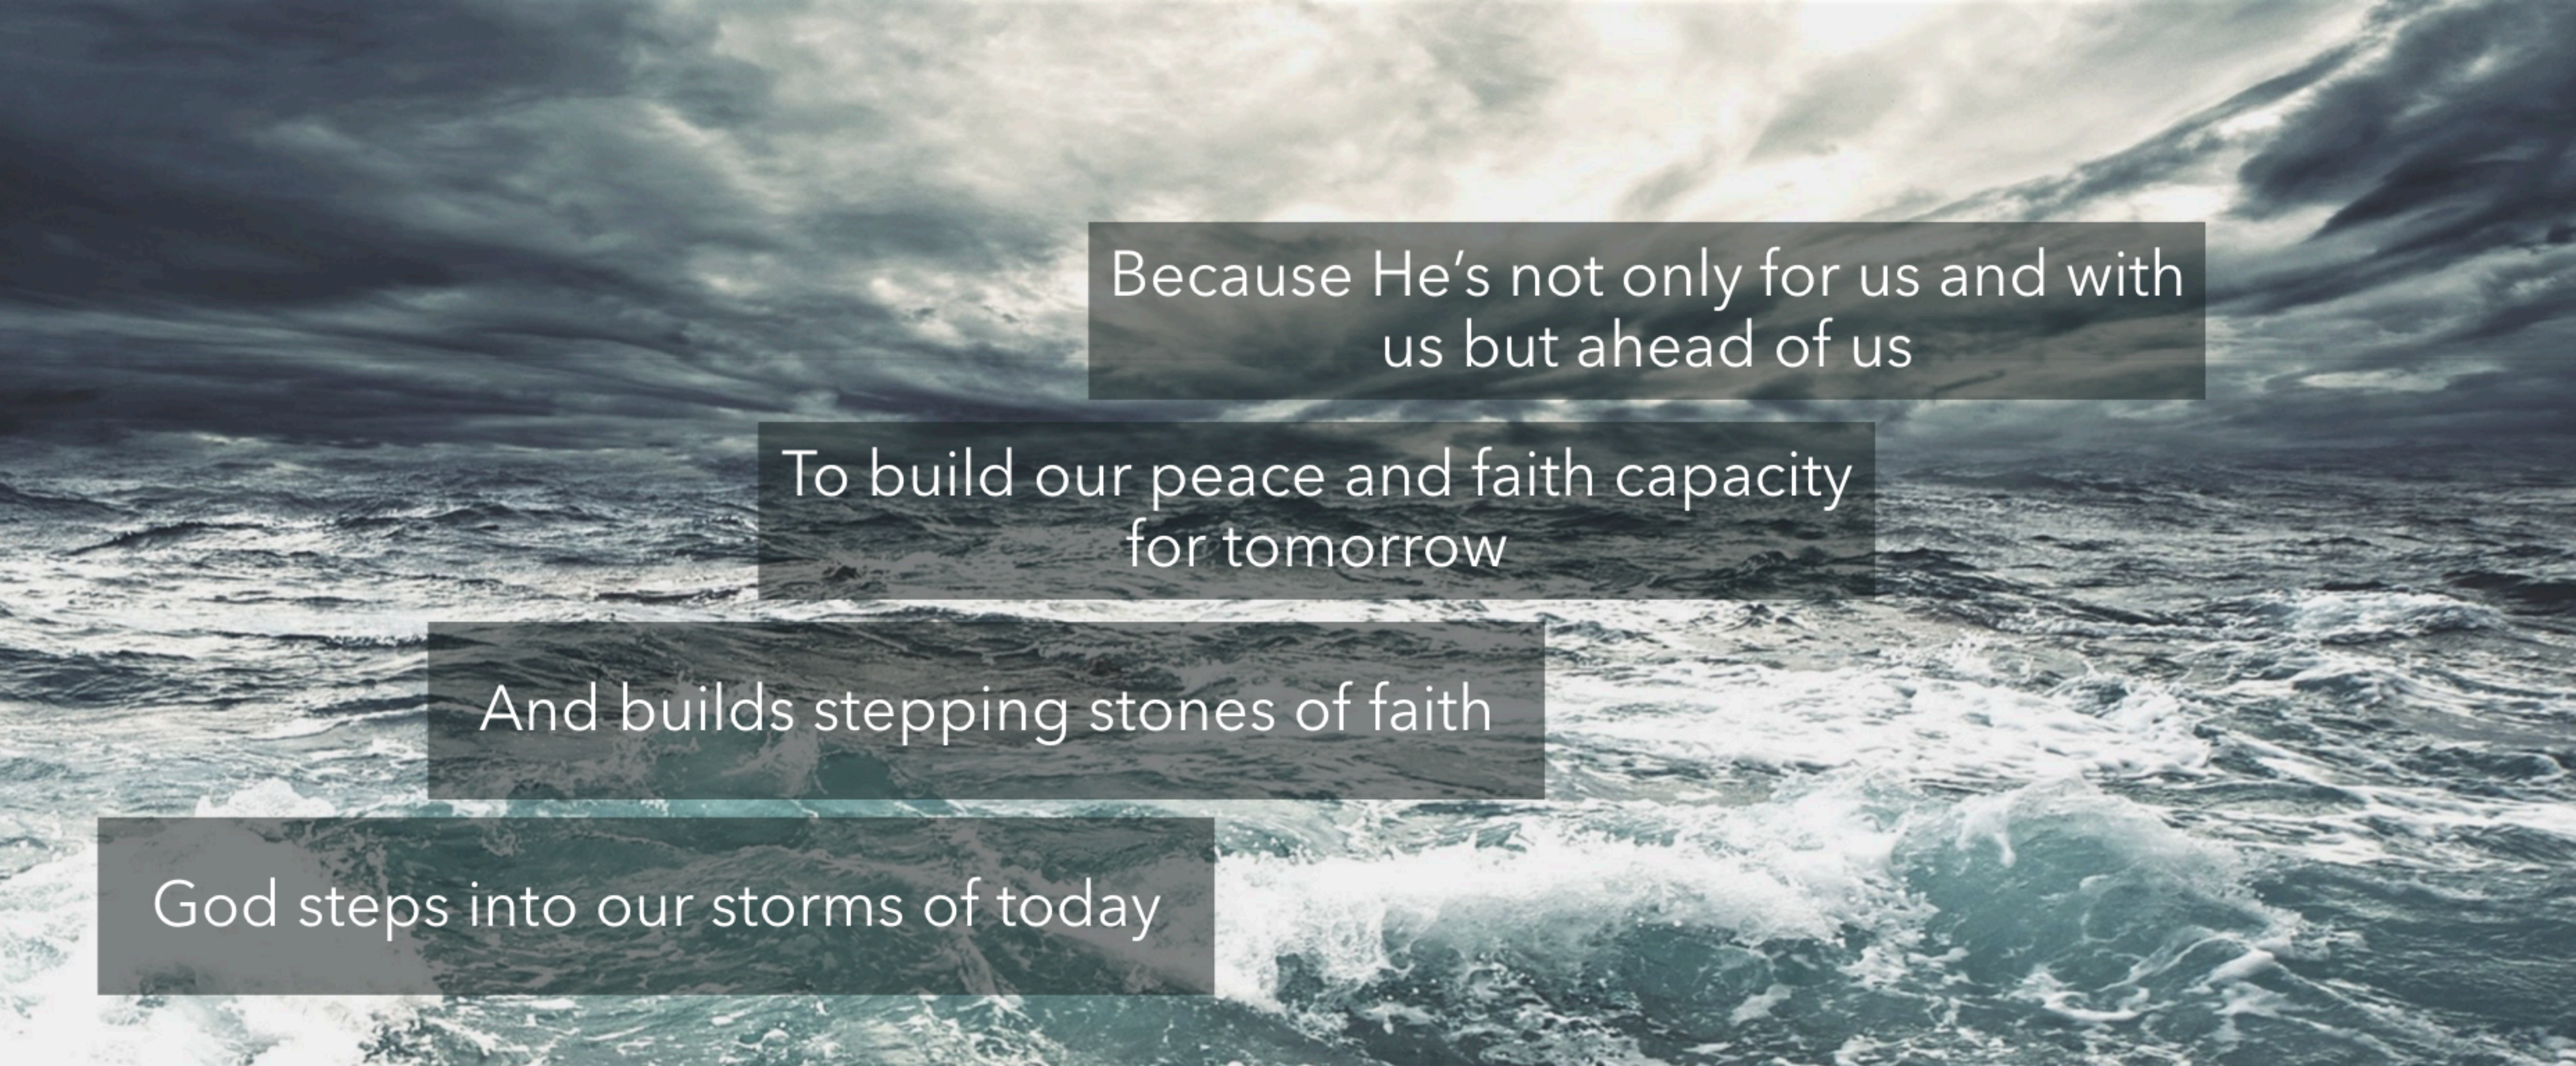

God steps into our storms of today

The background image is a full-page photograph of a turbulent ocean under a heavy, stormy sky. Dark, swirling clouds dominate the upper half, with a bright light source breaking through near the center, creating a dramatic silhouette effect. The ocean below is dark and choppy, with white foam from breaking waves visible in the lower right foreground. Three semi-transparent dark rectangular boxes are overlaid on the image, each containing a line of white text.

To build our peace and faith capacity
for tomorrow

And builds stepping stones of faith

God steps into our storms of today

To build our peace and faith capacity

How Kingdom Advance Comes in a Storm

Since Paul doesn't have positional authority, no one listens to him.

But God has a call on his life. So Paul's called to this boat.

Paul has spiritual authority as a son and servant of God.
