

Let There Be - Awaken Version

Verse 1

Love
Started this whole thing
In the beginning a voice to the void
Spoke
Into existence a life that's worth living
And it still echoes on

Chorus 1

Let there be light let there be light
Light in the darkness light all around us

Verse 2

Love
Wept here beside us
Absorbed every violence with a crown
and a cross
He spoke
One final sentence and death was
rescinded
And we were restored

Chorus 2 (x2)

Let there be life let there be life
Life in the darkness life all around us

Verse 3

Love
Couldn't be silenced
Couldn't stay secret
Couldn't be stopped
We wait
Watch for the morning
Even in longing
Our song echoes on

Chorus 3

Let there be Christ
Let there be Christ
Christ in the darkness Christ all around us
Let there be Christ
Let there be Christ
Christ in the darkness Christ all around us

Down Verse

We wait
Watch for the morning
Even in longing
Our song echoes on

LETTING GO
Sandra McCracken

Oh I feel like I've been trampled by a tempest
I've been holding up the last of my defenses

Rise up, oh my soul
Love is letting go
Oh my soul

Rise up, let go

I will not let the darkness have the final cadence
So I descend holding the spotlight in the basement

You've been trying to throw your arms around the east and west
Drinking from the well of broken promises
That you know you cannot mend
Knowing when to say when

Planting rows of sorrow waiting for the harvest
Look and see how far we've come from where we've started

Rise up, oh my soul
Love is letting go
Oh my soul

Rise up, let go
Rise up, let go
Rise up, let go
