

Dear Pastor and Praying Friends,

03 September 2023

Thank you for your prayer and support over the last several months. It has been a busy season, but God is blessing. He has been faithful to our family and in our ministry.

At the end of July we began teaching college courses at East Africa Baptist College. Seth is teaching a course on the Book of Romans. Jen is teaching Home Economics to the young ladies. The Home Economics course is a blend of Christian Womanhood mixed with Home Economics. Thus far, they have enjoyed a study on the Virtuous Woman. It has been a blessing helping to help train future pastors and pastor's wives.

Toward the middle of August, we began our church building project. We are putting a temporary structure on the property. We have heard from many in our community that they are afraid to come to the church because we are meeting in a house. With the new structure, our services will be seen from those passing by and we are hopeful that it will bring in many new visitors. We have been down in numbers the past few weeks and we are excited for the new building. Lord willing, we will be finishing up with the roof this week. Please continue to pray that all will be done to the glory of God!

The week of September 11, Seth will be taking two very faithful men of our church up country to take a training course for the youth. Please pray for them as they make the ten hour journey up and during the week as they are gone. Lord willing they will return with a new Youth ministry teaching program that we can introduce into our church.

Thank you again, for all that you've done for our family, both financially and prayerfully. You truly are the lifeline that keeps us on the mission field. I want to thank those Churches that gave special offerings for the temporary building and Church signs!

In Christ,

Seth & Jer Demorest

Prayer Requests:

- God to bless our weekly soul winning/Discipleship programs.
- Continued safety as we finish building the temporary church building.
- · Spiritual grown of the new believers.
- Seth's Health/keeping blood sugar within normal ranges.
