

## **How Passover Points to Jesus**

### Exodus 12:1-13

**Last** Sunday, we looked at how we can apply a simple acronym, CHRIST, to a text of Scripture to see how it points to Jesus.

**Today**, we're going to slow down and apply this to a biblical text. Whether we apply this acronym or not, it is important we read the Bible with Jesus at the center - this is how Jesus interpreted the Scriptures (Luke 24)! To miss Jesus in the Scriptures is to miss the meaning

of the Bible (as we saw from quotes last Sunday)!

**Here** are some helpful suggestions to seeing Jesus in the Bible and applying the CHRIST acronym:

- Start with short texts within a chapter of the Bible occasionally.
- Read the text and see where your insights fit into the acronym.
- Use other sources (1517.org).
- Interpret all pictures of God according to the fullest picture of God in Jesus Christ [Jesus did! See also Hebrews 1:1-3].

**Let's** look at the text verse-by-verse and apply the CHRIST acronym:

**C.H.R.I.S.T.**

<b>T — Transformation in Christ</b>	

*God's saving work has always been the same:  
not by our effort, but by His provision of the  
Lamb, whose name is Jesus! To dig deeper on  
Passover, look up the word “Passover” in the  
New Testament!*
