

The Church Ablaze

Dr. Bill Wilks

Acts 2:1-47

Today's church is in great need for revival. Cold, compromising, and corrupt churches have become the norm. It's hard to distinguish between the people of the church from the people of the world.

The Bible says that "our God is a consuming fire" (Heb. 12:28b-29). There is a desperate need for His fire and power to fall from heaven. We must long for holy fire from God to set the church ablaze again.

In our text, God's Holy Spirit and holy fire descended upon the early church and set it ablaze for His glorious work on earth.
