According to WebMD, blurry vision may not really be a problem with your eyes. It could be a sign of something more serious. This can be said about spiritual vision as well. Many people and churches around us today are suffering because of a blurred spiritual vision.

What a difference it would make if we had eyes like Jesus! If we could see what Jesus saw and love like He loved, the world would be a different place. Jesus saw the world with grace-filled eyes.

In our text, Jesus saw the crowds around Him and had compassion for them.
