Milestone moments are those defining moments in life that mark a significant event or turning point in one's life journey. Such things as baptism, graduation, marriage, buying a home, or having a baby are all major milestones in our lives.

Likewise, we all come to milestone moments as we run the race of faith. These moments will test our faith and call us to greater levels of commitment. What we do in these significant moments will determine whether we move forward or backward in our faith journeys.

In our text, the writer of Hebrews called for followers of Christ to run with endurance the race that was set before them.
