Welcome to Family Worship Sunday! A few times a year, we all gather as one big family to worship together. This service may look, feel, and even sound different than usual, but these weeks are some of the most special ones of the year. There is something truly powerful and beautiful about the whole family coming together to worship.

In today's text, we encounter a "God moment"—a powerful act that only He could accomplish in the lives of His people. What can we learn from this story about how to live in light of the "God moments" in our own lives?
