

When Little Becomes Much John 6:1-14

Has God ever asked you to do something that seemed bigger than you? In other words, when you looked at your resources and considered the task that God had placed before you, the numbers simply didn't add up. This is not unusual because this is exactly how God works.

Every great work of God begins with someone willing to simply offer what they have. Noah had a hammer. Moses had a staff. David had a sling. A widow had two mites. And a little boy in a big crowd had five loaves of bread and two fish.

In our text, Jesus gave His disciples an assignment that was bigger than what they could do alone.
