

Risk is the possibility of losing or gaining something of value as a result of an action.

Values (physical health, social status, emotional well being, financial wealth) can be **gained or lost** when taking risk, resulting from **an action or inaction**, foreseen or unforeseen.

How Likely You Are to Die From Different Activities and Behaviors

Unit of risk – The Micromort – represents a one-in-a-million chance of sudden death.

Exposure to 1 micromort exposes you to a 1-in-a-million chance of dying.

**Why not risk for something of
ultimate, eternal value?**

Risk in the context of our faith

Taking action in faith knowing we may lose what we value in this life, for something of eternal value.

Risk in New Testament

...our beloved Barnabas and Paul,
26 men who have **risked** their lives for the name of our
Lord Jesus Christ. – Acts 15:26

Greet Prisca and Aquila, my fellow workers in Christ Jesus, 4 who
risked their necks for my life... - Romans 16:3-4

for he nearly died for the work of Christ, **risking** his life to complete
what was lacking in your service to me – Philippians 2:30

Risk is part of our lives (James 4:14)

God does not risk. He is sovereign and every outcome is known to Him (1 John 3:20)

The saved, have 0% eternal risk (John 10:28-29)

Risky behavior/living is not wise (Eph. 5:15-17)

God allows situations that require us to step out in faith (James 1:2-3)

PERSONAL FAITH/RISK ASSESSMENT

For me to live is Christ, and to die is gain – Phil 1:21
