Renovation Update

The process we went through with Aspen group which included open forums with our people were really helpful. We heard what mattered to our people and their own personal desires for the building moving forward. After this process though, the plans created through Aspen Group were not approved. Their vision and ours were not lining up, so we decided in June of 2021 to take a pause for prayer, guidance, and to have any important conversations regarding what we need to get right.
