Dear Church Family,

There is a challenge facing LSBC. We are not giving. In September of 2022 offerings were approximately half of the September of 2021. At this time, we are \$125,000 behind our budget need for tithes and offerings. This shortfall is about 10% of our total annual budget. For many months, staff and ministry leaders have limited spending to ministry essential services and fixed costs. Our challenge now is giving. I know the economy is scary right now, but I believe God calls us to trust Him even more in times like this. I ask that you pray and submit yourself to God's leading.

As much as I would like you to give because LSBC needs it, I believe our motivation must be to give as an act of faith in the One who holds our future.
