What is Prophetic Dance?

Dance/movement is a language of communication as are words, music or visual art. Therefore, when dance is communicating God's word for a particular people and situation it is prophetic. It can be choreographed or spontaneous just as the prophetic in word can come through either a prepared or a spontaneous message. During prophetic worship, intercession is offered, spiritual warfare is waged, prophetic power is released, anointed sounds are produced and creative words are spoken and sent forth. To grow in the prophetic, this means learning to dance your prayers spontaneously as intercession; using dance in prayer rooms and worship services; encountering God through movement and releasing His working in both personal worship times and corporate worship settings. Psalm 149:2-3, Psalm 150:4; 1 Corinthians 12:4-6
