

**Small Group Guide: Parsha Tsav –
The Fellowship and Thanks Offerings
March 28, 2026**

Discussion Questions

1. How does understanding the different types of offerings (sin, fellowship, thanksgiving) change your view of the Levitical system?
2. What is the significance of the todah (thanksgiving) offering having to be eaten within one day? How might this relate to the Passover lamb?
3. Why do you think the corporate offering (minchah) had to come before individual offerings? What principle does this teach us?
4. The message mentions that in Messianic times, people will thank God even when bad things happen because they'll see God's goodness in everything. How do you struggle with or embrace this concept now?
5. On a scale of 1-10, how would you rate your "gratitude quotient"? What prevents you from being more thankful?
6. The challenge presented is to find 100 things each day to thank God for. What would be on your list today? Name at least 10 things right now.
7. How can we practice thanking God for commonplace blessings we typically overlook (breathing, safety, provision)?

8. The message states, "Life itself is a gift we can thank God for... that is what must define us." What currently defines you? How can gratitude become more central to your identity?

Practical Applications

Individual Practices

****The 100 Thanks Challenge****

- Keep a daily gratitude journal listing 100 things you're thankful for
- Start small if needed (10-20 items) and build up
- Include both obvious and overlooked blessings
- Review your lists weekly to see patterns

Prayer Reorientation

- Begin your prayer time with thanksgiving for the Body of Messiah corporately
- Pray for your congregation/fellowship before personal requests
- Reflect on how this changes your perspective

Going Deeper

1. Read Leviticus 7:11-18. What are the differences between the various fellowship offerings? What can we learn from these distinctions?
2. Research Jeremiah 33:14-18. What does this prophecy tell us about worship in the Messianic age?
