

Title: God's Hidden Hand
Speaker: Warren Boettcher
Text: Esther 2:5-23

Main points:

1. The world's value system is faulty and shallow.
2. Assimilation is a slippery slope with dangerous cliffs.
3. We often have to wait to see God work.

Possible application questions:

1. How can you be attempted to adopt the world's value system?
2. How do you do when people talk about themselves? Are you tempted to want to talk about yourself?
3. Have you seen the sin of partiality function in your life? How?
4. How can you be tempted to "fit in" to this world?
5. Is it hard for you to wait to see God work? Is there any area right now in your life where you are waiting?
6. How can God's hidden hand in Esther help us right now in this challenging time of pandemics, political division, and personal trials?
