*Knowledge is indispensable to Christian life and service. If we do not use the mind that God has given us, we condemn ourselves to spiritual superficiality and cut ourselves off from many of the riches of God's grace.* - John Stott

1. If your mind is a gift from God, how do you think God would like you to use it?
2. Why is it so important to pay attention to what you pay attention to?
3. One of the goals of modern education is to inspire students to become life-long learners. Why is that so important? What inspires you to continue learning and growing?
4. Looking at the practical suggestions: Which are you already attempting to implement in your life? What step do you sense God is calling you to take?
