

MOVING FROM TO MOVING TO

## MOVING FROM

- There is comfort in “From”
- God does a lot of the work w/minimal from the recipient
- Shouting, dancing, outward expression, praise and celebration

## MOVING TO

- There is work and development in “To”
- Recipient must change in ways that it challenges and exposes who they are or what is in them (more work and responsibility on the recipient, than on God)
- Maturity, responsibility to change to serve as something which impacts present and future

# QUESTIONS

- What is naked vulnerability?
- Do we really know people (morally) w/out being tested?
- Who are you friends with, what you know or what you do not know?
