

“GO DEEPER” QUESTIONS

EVERY DAY MATTERS – DEVOTED CHILD

10/11/26

- We all have a desire for MORE. More happiness, more fulfillment, more purpose, more joy. What are some things you've pursued in life believing they would make you happy, only to discover that the satisfaction didn't last?
- In Genesis 3, Adam and Eve began to doubt God's goodness. They believed God was withholding something good from them. Why do you think it's some times difficult for us to trust that God really does want what's best for us? Can you share a time when you've struggled with this?
- One of the big ideas from the message was, "Good things make terrible gods. " What are some good things in our lives that can easily become more important to us than God? How can we recognize when that's happening?
- In Psalm 63:3, David declares, "Your love is better than life." What do you think David understood about God that allowed him to make such an extraordinary statement? What would it look like for us to genuinely believe that knowing God is better than anything else life has to offer?
- The message concluded with this thought: "The greatest thing God offers us isn't something He can give us. It's the opportunity to know Him." How would your relationship with God change if you approached Him primarily because you wanted to know Him, rather than because of what you hoped He would do for you? What's one way you could begin approaching God differently this week?
