

DISCUSSION QUESTIONS:

1. What is the central concern of the Second Commandment, and how is it distinct from the First?
2. Why does God forbid not only false gods, but also *false ways of worshiping the true God*? In what ways are we tempted to worship God in an inappropriate manner?
3. According to the Westminster Larger Catechism, what are the “means” God has appointed for His worship? How should these means direct our weekly devotional habits and our personal holiness?
