

# UPDATE 01.08.2022

**US GOING INTO UKRAINE?** – Things are getting insanely out of control in the Ukraine conflict. Analyst Colonel Douglas MacGregor is not alone in reporting that his sources tell him that the Biden regime is about to put boots on the ground in Ukraine. This of course would be a giant escalation. We know that American and other NATO troops are there already – as unofficial combatants. There are reports that about 12,000 Polish troops are there. Here is some of MacGregor's analysis. “The Biden

administration's unconditional support for the Zelensky regime in Kiev is reaching a strategic inflection point not unlike the one LBJ reached in 1965... Like South Vietnam in the 1960s, Ukraine is losing its war with Russia... The real danger now is that Biden will soon appear on television to repeat LBJ's performance in 1965, substituting the word 'Ukraine' for 'South Vietnam'” He believes that the President will propose the establishment of “the ground equivalent of a 'no-fly zone.' The mission I propose is a peaceful one, to create a safe zone in the Western most portion of Ukraine for Ukrainian Forces and refugees struggling to survive Russia's devastating attacks.” American, Polish and possibly Romanian forces would be used. This of course would keep open the supply lines to Kiev from Poland.<sup>1</sup> Here's this from future Trends researcher Gerald Celente. He cites a report that says: “US troops stationed in Eastern Europe are preparing for all-out war and have been performing war simulations against Russian forces.” The 101<sup>st</sup> Airborne has deployed to Romania. “The New York Times reported in June that Ukraine is filled with CIA officers and special forces from the West... The Intercept, citing 'several current and former intelligence officials,' reported that President Joe Biden has decided to have these forces conduct clandestine operations inside the country.”<sup>2</sup> All of these are acts of war!

**VAXICIDE** – The tide is shifting. According to a Rasmussen poll almost half of Americans now believe that the Covid vaccines are responsible for the rash of sudden and excess deaths.<sup>3</sup>

- German statistical analysis of vaccine injuries found daily death rate of 14 prior to the vaccine rollout. The number has now reached 97 per day.<sup>4</sup>
- “Japan has launched an official investigation into the unprecedented numbers of people dying after receiving the Covid-19 vaccination.” The data showed “significant changes to the genetic makeup of vaccinated autopsied patients' immune systems.” The research team concluded “the vaccine causes immune system abnormalities that prompt inflammation throughout the body.” They stated, “ We believe that vaccination was sufficiently related to the immune abnormalities.” Referencing the tendency of the vaccine to result in a suppressed immune system, Professor Shigetoshi Sano stated, “I don't know if I should say this, but it has been found that vaccinated people are more likely to get coronavirus than unvaccinated people.”<sup>5</sup>
- Film from 2018 of Dr Fauci clearly stating “gain of function research is beginning again under his leadership.”

# GOOD FROM EVIL

*“You meant evil against me; but God meant it for good, in order to bring it about as it is this day, to save many people alive.” (Genesis 50:20)*

*“And we know that for those who love God all things work together for good, for those who are called according to his purpose.” (Romans 8:28) (ESV)*

Sometimes there is something in a tragedy that transcends the moment – that alters the trajectory of an event – that captures challenges the zeitgeist in a way that can be transformative. We live in the ‘Age of Crises.’ The Economic Crisis, Vaccine Crisis, a looming Food Crisis, an Energy Crisis....and more. And there was this football game, big game by NFL

standards that had barely begun and a banal ordinary play occurred – a reception by Tee Higgins of the Cincinnati Bengals then tackled by Buffalo Bills Safety Damar Hamlin that turned into one of those moments that helps us define what is really important in life. The 24-year-old Hamlin took a helmet to the chest. He sprang up, then seconds later fell backward – completely out. And in that moment, everyone knew there was something terribly wrong. Players from both teams began yelling desperately for the medical staff. His uniform was cut off of him. He was administered CPR for about 9 minutes. And then a defibrillator was used. He needed to be resuscitated twice. At this writing he remains unconscious, in critical condition. And therein lies the tragedy.

We'll talk about what the causes might be. But the immediate effect was that it united not just the two teams, not just the two fan bases – but in some ways a large portion of America – in PRAYER. Players from both teams immediately surrounded their fallen comrade, driven to their knees praying for Damar. The two quarterbacks, Josh Allen & Joe Burrow embraced. Players were distraught and crying. This was family. Dan

Orlovsky, an ESPN analyst broke script and led fellow commentators and audience in an on-air prayer. “God we come to you in these moments that we don't understand, that are hard, because we believe that You're God and coming to You and praying to You has impact. We're sad, we're angry, we want answers, but some things are unanswerable. We just want to pray, truly come to You and pray for strength for Damar, for healing for Damar, for comfort for Damar. Be with his family to give them peace. If we didn't believe that prayer worked, we wouldn't ask this of You,

God. I believe in prayer, we believe in prayer, and we lift up Damar Hamlin's name in Your name, Amen.” In the midst of the tragedy we are watching God move. Damar Hamlin’s charity, a toy drive hoping to raise \$2,500 was blitzed by givers, and has raised over \$4 million. It’s a small step but a needed first one. Tragedy is uniting America in prayer for Damar. Lord, let that be the first step toward a seeking of your face, the first step toward national repentance. We need you Jesus because we cannot face the many crises we are facing without you. And perhaps, this distraction....this diversion.....has communicated to us that wisdom. Let us pray that this is a turning point!

As this went to press, the Bills announced that Hamlin was showing “remarkable improvement” and that he appears to be “neurologically intact.” His teammate Kaiir Elam tweeted out this message on Wednesday morning.

Dan Orlovsky (L) leading prayer

Damar Hamlin
