

ENGINEERED COLLAPSE 2

Here's the BOTTOM LINE! Barring a Great Awakening and mass repentance on the order that Nineveh demonstrated when confronted by Job: The Collapse of Western Civilization is inevitable. And it is an engineered thing. We began making this point last week. Nothing is an accident. The corona virus didn't just happen. The lockdowns & forced masking & the vax – they weren't just mistakes...Get that nonsense out of your heads. We have been duped. We have been had – on so many fronts. We live in an Age of Deception. The first thing Jesus told His disciples when they asked about the End of the Age: *“Take heed that no one deceives you.”* We reviewed it in the last issue. There are wars on the border, the economy, energy, the family, our climate, the dollar, the food supply, our DNA – and a war on human life through the vaccines. This is all meant to drive us toward a totally controlled New World Order through The Great Reset, sponsored and controlled by the World Economic Forum. The WEF brags *about* altering the human genome. Their philosopher in chief, Yuval Noah Harari boasts that “humans are hackable animals.” This is in the same manner has when humankind was manipulated in Genesis 6 when the B'nai ha Elohim – the fallen angels – came into the daughters of men and produced the Nephilim. All a product of genetic manipulation.

They tell us all of their steps are good things; signs of progress. But it is through these layers of deception that the Antichrist Kingdom will establish itself. 2Thessalonians 2:9-10 - *“The coming of the lawless one is according to the working of Satan, with all power, signs, and lying wonders, and with all unrighteous deception among those who perish, because they did not receive the love of the truth, that they might be saved.”* And God will cooperate in their destruction. Verses 11&12 – *“And for this reason God will send them strong delusion, that they should believe the lie, that they all may be condemned who did not believe the truth but had pleasure in unrighteousness.”*

The Mechanics of Global Famine

There is an interconnectedness to all of this web of deception. Consider just the food supply situation. Michael Yon is a former Green Beret and one of the most accomplished correspondents out there. He describes what lies before us as the “Triangle of Death.” There is a circular causal relationship between the pandemic, famine and war. The relationship is being manipulated now by the Globalist Elite to produce conditions of destruction and collapse. Start with the millions that are moving up through Central America and Mexico toward America's southern border. It is a mass migration that is driven by war. Yon: “The entire world is moving through the Darien Gap.”¹ That's in Panama. This year it is the Peruvians driven to migrate by conditions back home. This is an arranged invasion. There are no real plans to secure the border. [In fact, if the Globalists have their way, the border of a North American Union will be located at Mexico's southern tip. Joe Biden Canadian Prime Minister Justin Trudeau and Mexican President Andrés Manuel López Obrador signed a document which seems to be a prelude to a North American Union between the three nations. The document was titled the “Declaration of North America (DNA)” – and it was laced with woke Agenda 21 principles. “The White House declaration committed to direct the future course of the three nations to ‘promote racial justice’ and ‘expand protections for LGBTQI+ individuals’ in order to deliver ‘more equitable outcomes to all.’”]²

So, the Elite are creating a human-induced famine. Over 200 food facilities have been hit in the US alone, most of them with fires. [It is interesting how one investigator found that the attacks closely mirror those of an academically-produced document that war-gamed food security and food terrorism issues. The correlation goes far beyond what could be produced by coincidence.] Then you have the even more serious attack on nitrogen-based fertilizers. Nitrogenous fertilizers are responsible for feeding 4 billion people, about half of

the world's population. A major part of that attack is the result of the war on natural gas. Natural gas is needed to produce the fertilizer. But right now, woke Europe is essentially outlawing natural gas production on any level that could sustain the industry. BASF in Germany has been cutting ammonia production because the cost of natural gas is prohibitive. As a result, Europe is not exporting fertilizer. This is and will cause a major reduction in crop yields in places like Thailand, Brazil and India. Rice crops will fail. Add to that the fact that the USA is responsible for blowing up the Nordstream Pipelines shipping gas from Russia to Europe. Conditions are so bad in Europe that BASF is shrinking its' European presence and expanding in China.

Michael Yon: "Famine creates smore famine and pandemics." And pandemics return the favor. They create the conditions for each other. This prepares the soil – pun unintended – for the New World Order. The WEF is the main pusher of the Great Reset. The WEF is connected to China. They like that country's Social Credit Score System for controlling the population. The WEF's influence has spread across the globe. They control the Netherlands which is trying to seize land from their farmers. You replace the farmers with your own farmers to get control of the food supply. None of this is a secret. "Evil will tell you what they are doing." Go to their website and the "WEF tell you they are cutting off fertilizers." Germany is in chaos. Millions of trees are being cut down for heating because citizens there are not allowed to use – or can afford natural gas. Millions are in the streets of Paris because they can't afford food – because of high energy prices. Combine that with the vaccine, which we now know is killing millions and you have the blueprint for "comprehensive war" and "population reduction." Michael Yon's conclusion: "Famine will hit America."³

America the Target

In case you didn't notice, America has been a target of much of the international community for some time now. This is long-term intelligence that is increasingly confirmed in the present along with new developments that tell us that America's time may be nearing an end. For decades Chinese troops have infiltrated our borders, setting up strategically located cell groups with pre-positioned military equipment of all sorts: Stinger Missiles and Javelins, AKs, portable mortars to take out the refineries. We've reported on it here before. The same is true of the Iranians. There is a civil war in Mexico, the cartels against the government – and it is going on just across our borders – soon to come across and leave its' swath of destruction. Mike Adams and Steve Quayle describe this as the "intentional destruction" of the United States Military. China has bragged about what they accomplished through the Coronavirus bioweapon. Chen Feng – "With our bioweapon we defeated the United States." Another Chinese official: "The entire point of the release of the bioweapon was to ultimately force the vaccination of the US military."⁴

Our leaders are facing imminent destruction and they don't have a clue. Of course, the rest of country will be taken down at the same time. Like the Babylonian Princes drinking from the Temple vessels on the night before their destruction, in their arrogance, the American Babylonian Elite are clueless that they are on the eve of destruction. Right now we have Russian vessels carrying hypersonic & likely nuclear-tipped missiles, ready to breach the walls.

However, the asymmetrical warfare has been going on for some time now. Here are some examples.

- The LGBT movement is neither grassroots or organic. It was manufactured by our enemies. This is a classic Marxian tactic. Destroy the nuclear family. Destroy the morals of the nation. The Communists infiltrated the teachers unions which serve as a conduit to America's youngest generation.
- China has acquired massive amounts of mineral rights and farmland. Of course, Bill Gates has a bunch of farmland too.
- For the longest time, the Port of Long Beach was controlled by the Chinese and served as a point of infiltration. It took President Trump to put an end to that.

- Modern Monetary Theory basically says you can print all the money you want to. Of course, that's destroying the value of the US dollar.
- The giant loss of military equipment in Afganistan.
- Followed by the give-away of missiles and weapons systems to Ukraine where many of them end up on the Black Market. We gave away 51K Javelin missiles – and we do not have the capacity to replace them. We are strategically depleted while Russia and China are building up.
- The Ferguson riots were fanned by the CCP.

This is all about destroying America from the inside-out. Of course, all of this can be accomplished when you put 50% to 60% of America's Federal Lawmakers on the Chinese payroll. Australian intelligence from a few years back found that some of them were getting \$250 million – and some governors received in excess of \$100 million. We are a bought and paid for nation. That's the asymmetric situation. Now, let's look at the strategic military / kinetic plan.

Here's Wei Feng again. "Preparations for full on amphibious attack of US." [The Chinese believe their destiny is to rule. All Anglos must be "genocided." Jaime Walden and other sources report "They have been "assured stand-down orders all the way to the Rocky Mountains." That's why all the good guys have been forced out under Obama. Walden quotes an anonymous Christian Patriot Pentagon / Military insider. "It is done. It is finished. A full Marxist takeover" "Perestroika deception from the late 50s to today. There is not one person left on the Joint Chiefs that will stand for America. Everyone of them has been bought and paid for by China. There will be no fight. They will come in and acquire the Untited States of America."

Intel from the last 15 years points to the details of how the attack on the United States is likely to progress.

- A Chinese force including several armored brigades will attack through the Columbian River Gorge. [We all know about the Chinese troops that have trained openly in Canada.]
 - American troops retreat up to the Rockies.
- Chinese & Iranian led forces that include Middle Eastern terror groups and likely Cartels, move up through Southern CA & parts of southern border pushing up into Texas, N Mex, AZ'.
- A Russian contingent moves down through Minnesota.
- The East Coast will be dealt with using cable cutting subs off coast. 98% of all internet and financial transactions goes through those cables. That action would also just about shut down much of America's strategic tracking capabilities.
