

# ENGINEERED COLLAPSE

*“Professing to be wise, they became fools.” (Romans 1:22)*

The most important thing we have to hang on to when we’re looking at the world and trying to make sense of events is this: Nothing is an accident! That is hard to wrap our heads around. America and the West and the world for that matter have been in a slow slide for some time now but the collapse of Western Civilization has accelerated over the last few years – and continues to accelerate at a calamitous rate. Victor David Hansen is a distinguished professor and political / social commentator who recently penned a column for American Greatness in which he asked a series of questions that highlighted that slide. He began with this one. “Did someone or something seize control of the United States?” The questions that followed highlighted our plight.

Who erased the border?” “Did Congress secretly repeal our immigration laws?” [The Border Crisis] “When

did clean-burning, cheap, and abundant natural gas become the equivalent to dirty coal? How did prized natural gas that had granted America’s wishes of energy self-sufficiency, reduced pollution, and inexpensive electricity become almost overnight a pariah fuel whose extraction was a war against nature?” [The Energy Crisis] “Since when did Americans create a government Ministry of Truth? And on whose orders did the FBI contract private news organizations to censor stories it did not like.” [Censorship] “Was it legal suddenly for one presidential candidate to hire a foreign ex-spy to subvert the campaign of her rival?” [The Electoral Crisis] “When did the nation abruptly

decide that theft is not a crime, assault not a felony? How can thieves walk out with bags of stolen goods, without the wrath of angry shoppers, much less fear of the law?” [A Morality Crisis] “Were Americans ever asked whether their universities could discriminate against their sons and daughters based on their race? How did it become physically dangerous to speak the truth on a campus?” [The Death of Truth] “How did a virus cancel the Constitution?” [The Coming Sovereignty Crisis] There were more questions. Biological males competing in women’s sports. Children changing their sexual identity.<sup>1</sup> “*Professing to be wise,*” they indeed, “*became fools.*”

All of this was not an accident. It is part of that planned destruction. Many now believe the collapse is imminent and unstoppable. Egon von Greyerz, the financial wizard, believes that the world is now on the path to “full-blown collapse.” There are two great dangers. The first being the US-Russian War being played out in Ukraine with the Ukrainian military dying for America. But it is the specter of nuclear war that makes this threat existential in nature. The second is the threat of a massive / unprecedented financial implosion. Either of these would necessarily lead to a great reset....and therefore The Great Reset – and the New World Order – and the rise of the Antichrist. We are that close.

Von Greyerz: “In my estimation this is not a war between Russia and Ukraine but between the US and Russia. Russia found it unacceptable that the Minsk agreement of 2014 was not kept to. Instead, the bombing of the Donbas area continued.” [Donbass is an area populated by ethnic Russian-speaking Ukrainians....or at least former Ukrainians as Russia has now incorporated that province.] As Ukraine intensified the bombing, Russia invaded in Feb 2022. I won’t go into the details here of who is at fault, etc, but what is clear is that the US NeoCons have a major interest for this war to escalate. For them Ukraine is just a pawn and the real enemy is Russia. Why would the US otherwise lead the initiative to sanction Russia and send weapons and money to Ukraine but send no peace keepers.” [Now, Europe has for the most part gone along with this nonsense – and in the process they are committing national suicide.] “Most of Europe is heavily dependent on Russian oil and gas. Still Europe is shooting itself in the foot by agreeing to the sanctions initiated by the US. The consequences are disastrous for Europe and especially Germany which was the economic engine of Europe. Germany is now finished as an economic power. The global economic downturn started before the Ukrainian war but the situation has now severely deteriorated with the European

economy weakening rapidly.”

Of course, the danger in this war is that it could easily go nuclear. Russia missile ships are prowling off of both coasts and heading openly toward Britain. Still, Zelensky is reeling in the West. He wants the full military commitment of NATO forces into Ukraine. Von Greyerz: “The risk of a major escalation of the war is considerable. Russia’s main aim is for the Minsk agreement to be honoured whilst the US Neocons want to weaken Russia in a direct conflict. Major wars are often triggered by a minor event or a false flag. The Neocons know that a defeat for the US in this conflict would be the end of the US dollar, hegemony and economy. At the same time, Russia is determined not to lose the war, whatever it takes. This is the kind of background that has a high risk of ending badly.”

Then to the financial crisis. “Global debt has grown 75X from \$4 trillion to \$300 trillion since Nixon closed the gold window in 1971....The world could reach debt levels of \$3 quadrillion by 2030.” Of course, a collapse would bring along with it seismic consequences. The day of the dollar as the world’s reserve currency would end – impoverishing the US overnight. The dollar has lost 98% of its’ value over the last five decades. The existence of the war in Ukraine could give it a short term reprieve. But there are already significant moves on the world stage to replace it. The Saudis are buddying up to China and the BRICS nations are crafting an alternative currency. If there is no Petro-Dollar the greenback is NOT the reserve.

The West is also engineering the end of fossil fuels. Von Greyerz: “Without fossil fuels the world will collapse....Understand, that in spite of the climate zealots, there will be no serious alternative to fossil fuels for many decades. Fossil fuels account for 83% of global energy. Global growth can only be achieved with energy. Since renewables today only account for 6% and are growing very slowly, there will be no serious alternative to fossil fuels for many decades. In spite of that, Western governments in Europe and the US have not only stopped investing in fossil fuels, but also closed down pipe lines, coal mines and nuclear power plants.” By 2048, fossil fuel production is expected to drop by a quarter.<sup>2</sup> There is no current path forward

that would see that energy replaced. So, lifestyles would drop. GDP will plummet. Life-expectancy will retreat. Millions upon millions will die. And that will fulfill another Great Wish of the Great Reset Crowd.

There's the opportunity. The way will be opened for the formation of the One World Government. And in fact, the World Health Organization is plotting right now to set in place the architecture for that coming institution prophesied in the Bible. A committee of the WHO met in secret from January 9 through 13 to finalize amendments to the International Health Regulations. If adopted by the World Health Assembly being held in late May, they would death-blow to national sovereignty. Here are some of the effects those proposed amendments.

- “Change the overall nature of the World Health Organization from an advisory organization that merely makes recommendations to a governing body whose proclamations would be legally-binding. (Article 1)”
- “Greatly expand the scope of the International Health Regulations to include scenarios that merely have a ‘potential to impact public health.’”
- “Give the Director General of the WHO control over the means of production through an ‘allocation plan for health products’ to require developed states parties to supply pandemic response products as directed. (Article 13A)”
- “Give the WHO the authority to require medical examinations, proof of prophylaxis, proof of vaccine and to implement contact tracing, quarantine and TREATMENT. (Article 18)”
- “Institute a system of global health certificates in digital or paper format, including test certificates, vaccine certificates, prophylaxis certificates, recovery certificates, passenger locator forms and a traveler’s health declaration. (Articles 18, 23, 24, 27, 28, 31, 35, 36 and 44 and Annexes 6, 7 and 8)”
- “Greatly expand the World Health Organization’s capacity to censor what they consider to be mis-information and dis-information. (Annex 1, page 36)”

These – and other equally heinous amendments would go into effect by a simple majority vote of the 194 member nations. According to its’ proponents, the US Senate would NOT need to ratify it with a two-thirds vote as constitutionally required for treaties.<sup>3</sup> A set of supposedly similar amendments were introduced by the Biden regime for consideration at the 2022 meetings. They were defeated. One of those amendments would “both considerably extend the executive powers of the WHO Director-General to declare global emergency-like situations and centralize this power further by removing the need to consult and find agreement with the respective state party.” In other words, it would give the WHO’s Director closer to dictatorial powers to enforce his diktats. It also proposed to allow the fast-tracking of the “development and subsequent global distribution and administration of unlicensed investigational diagnostics, therapeutics and vaccines. This is done via the WHO’s Emergency Use Listing Procedure (EULP).” Another proposal would have further restricted states “sovereign rights to legislate and to implement legislation in pursuance of their health policies” as set out in Article 3(4) IHR, should they disagree with the assessment of WHO’s Director-General and the Emergency Committee.”<sup>4</sup> It is believed that the amendments being discussed at the secret WHO committee meeting this week are cut from the same cloth.
