

# 1 – BRAVE NEW ORDER

## The emerging illogical, bizarre & evil underpinnings of the NWO

*“Woe to those who call evil good, and good evil; Who put darkness for light, and light for darkness; Who put bitter for sweet, and sweet for bitter! Woe to those who are wise in their own eyes, And prudent in their own sight!” (Isaiah 5:20-20)*

We live in a society where might is trumping right. Where the weight of public opinion is pushing aside the dictates of justice. Where freedom is only free when it kowtows to the prevailing dictated morality. Take the case of NHL defenseman Ivan Provorov of the Philadelphia Flyers. The team was going to have its LGBT celebratory activities. The players were to don their gay apparel – Pride jerseys and use “sticks wrapped in rainbow Pride tape” – during the warm ups and celebrate the whole notion of LGBTism. But Provorov chose not to go along with it. It was a respectful refusal. “I respect everybody and I respect everybody’s choices. My choice is to stay true to myself and my religion. That’s all I’m going to say.” Provorov is Russian Orthodox. But his stand excited the ire of TV sports pundits. ‘The Flyers should be fined a million dollars.’ ‘I bet if you dig past the surface you’ll find a hypocrite.’ “NHL writer Greg Wyshynski called out Provorov for previously participating in the Flyers’ military appreciation event.”

Ivan Provorov

So, the player was being called out for having an independent set of values developed despite pressures to conform, instead of buying into the corporate celebration being thrust on the league. [Of what value is ‘forced conformity, anyhow?'] This wasn’t the only controversy that should have never been. Hall of Fame Coach and current broadcaster Tony Dungy has long stood for Christian causes and has weathered a storm of criticism. Often called ‘homophobic’ for his past stands – a nonsense term bandied about by the Woke Left, Dungy attended this year’s March for Life suffering a torrent of criticism. Christianity is no longer tolerated among the Mainstream Media Mob. The New Culture – the New Truth is now required. All must now pledge allegiance to the New Woke Creed!

It is as if this New Morality is fearful of exposure to the Truth of the human condition. Provorov and Dungy – perhaps unintentionally are serving as champions of what should be the morally obvious – and certainly is, the divinely proclaimed. But the plans of the Global Elite go far beyond moral depravity. Take some of the drivel coming out of the WEF’s big meeting in Davos this last week. Start with the speech given by United States Climate Ambassador John Kerry. He argued for a WW2-like mobilization of the entire globe.<sup>1</sup> Along the way, he revealed some of the hypocritical, liberal delusions of grandeur as he testified of the groups self-importance. “We select group of human beings, because of whatever touched us at some point or other in our lives, are able to ... come together and actually talk about saving the planet. It’s so almost extraterrestrial.”<sup>2</sup> And therein lies the clue of their ultimate connection: “extraterrestrial.” There seems a principle among the ultimately evil: They MUST telegraph what they are doing. [More on that in a bit.] This is the sign of the Luciferian connection. Kerry was signaling that there indeed was another – extra-worldly connection behind their schemes. Look at Genesis 6 and we find the fallen angels manipulating the offspring of women, creating hybrid humans that became the “mighty men of old” and the giants of the Old Testament. Today, mRNA is being used to alter the human genome. [Headline on Bitchute: **C19 SHOTS**]

they settled on “a new disease. No one’s immune.” One character argues: “We do have standards. This can’t be a made-up disease. The only moral thing to do is to release a deadly virus into the general public.” Next at the meeting they bring out a hypodermic needle and “test” it on one of the media moguls, who promptly passes out and dies. In the following scenes Homer is seen panicking – and then they are lining up for vaccines. Here’s the [link to the segment](#). It’s worth the two minutes.

But all of this stuff is child’s play compared to some of the capabilities that were revealed at the Davos meeting. One presentation, “Ready For Brain Transparency” – by Nita Farhany, really drove the point home, lining up with Noah Yuval Harari’s pronouncements at WEF conclaves of the recent past. Harari: “We are no longer mysterious souls; we are now hackable animals.” “Biological knowledge multiplied by Computing power multiplied by Data equals the Ability to Hack Humans” — Yuval Harari, WEF, 2020

Farahanhy made the point that using AI and something called the Internet of Bodies (IoB), the human brain is now capable of being decoded. The Sociable: ““Ready for Brain Transparency?” opened with a short video showing a dystopian scenario where employees’ brainwaves were not only decoded to determine their performance in the workplace, but also to determine whether they participated in illegal activity.” The video is quite disturbing in that it reveals technology that already exists and that is in the early stages of being rolled out. [The video is short and worth the look here](#). It starts at about the [40 second mark](#).

Farahany drives the point home. This is technology that already exists. And it doesn’t take a chip implant to access it. It can come in a wearable device – a headband or earbuds. Nita explains. “What you think, what you feel — it’s all just data — data that in large patterns can be decoded using artificial intelligence....“We can pick up emotional states — like are you happy or sad or angry... **We can pick up and decode faces that you’re seeing in your mind — simple shapes, numbers, your PIN number to your bank account.**”

So, before we go on, let’s talk a little bit about such “Telegraphing” on the part of the Globalist Elite. On November 21, 2010, The Simpsons, ran an episode called “The Fool Monty.” Coincidence theorists may claim this was just a fluke. Either way it is interesting. In one scene, the heads of off the mainstream media, NBC, CBS, TNT, etc - are huddled around a conference table where they are discussing creating “the next phony-baloney crisis” to terrify and control Americans. They settle on a “public health scare” – [ultimately called the Cat Flu in the episode] So,

Farahany is excited about this new technology, how it can increase safety and production and ease our interactions with the internet. But she does admit that it can slip into becoming a “tool of oppression.” Noah Harari warned of the depth and breadth of that tool in the past. Current and emerging technology would allow a level of control far beyond that exercised by Hitler and Stalin. A Dictator’s Dream!

“To hack human beings you need a lot of biological knowledge, a lot of computing power, and especially a lot of data. If you have enough data about me and enough computing power and biological knowledge, you can hack my body, my brain, my life. You can reach a point where you know me better than I know myself. Just imagine North Korea in 20 years where everybody has to wear a biometric bracelet, which constantly monitors your blood pressure, your heart rate, your brain activity 24 hours a day. You listen to a speech on the radio by the ‘Great Leader,’ and they know what you actually feel — you can clap your hands and smile, but if you’re angry, they know you’ll be in the gulag tomorrow morning. And if we allow the emergence of such total surveillance regimes, don’t think that the rich and powerful in places like Davos will be safe.”<sup>3</sup>

What is coming out of the WEF meeting at Davos – and the Global Elite’s playbook in general – is the attempt to replace God. That has been Satan’s goal from the beginning. In Isaiah we see the Devil’s motivation. *“I will ascend into heaven, I will exalt my throne above the stars of God; I will also sit on the mount of the congregation On the farthest sides of the north; I will ascend above the heights of the clouds, I will be like the Most High.”* (Isaiah 12:13-14) Whether the target is godly morality or control of the climate or the tyranny of the mind – the end goal is the same. Supplanting God and His authority. The goals of the WEF are opposed to the morality, the Laws and even recognizing the very existence of God. Professing to be wise they have become fools. Klaus, Noah & the boys are all about setting up a system of control – fully in human hands and answering only to human values. So, what we are seeing today lines up well with the story of the Tower at Babel. The people who undertook that project were establishing a human driven system. *“And they said, ‘Come, let us build ourselves a city, and a tower whose top is in the heavens; let us make a name for ourselves, lest we be scattered abroad over the face of the whole earth.”* (Genesis 11:4) They were seeking to make a “name for ourselves.”

Without fearing the outcome, God still recognized the seriousness of their attempted rebellion. *“But the Lord came down to see the city and the tower which the sons of men had built. And the Lord said, ‘Indeed the people are one and they all have one language, and this is what they begin to do; now nothing that they propose to do will be withheld from them.’”* (Genesis 11:5-6) The rebellion we are witnessing today is of the same order of magnitude as that seen at the Tower. But then, as now, God was fully in charge of the situation. *“‘Come, let Us go down and there confuse their language, that they may not understand one another’s speech.’ So the Lord scattered them abroad from there over the face of all the earth, and they ceased building the city. Therefore its’ name is called Babel, because there the Lord confused the language of all the earth; and from there the Lord scattered them abroad over the face of all the earth.”* (Genesis 11:7-9)
