'Elimination of Israel' on the horizon, IRGC commander says

Iran is promising to deliver a "strong and decisive response" to Israel's recent airstrikes in Syria that killed two Iranian military advisers.

Of course, this just confirms what we have known about the recent tensions in the area...

Middle East Expert: Iran Planning Multi-Front Attack On Israel

On Sunday, Dr. Kedar published an op-ed on the Hebrew-language Makor Rishon describing a shocking security situation developing in the region that represents a dire threat to Israel. Dr. Kedar began with a disclaimer:

A note to my readers," he wrote. "I hesitated quite a bit, debating whether to publish the things that appear below because of the panic they might cause in Israel.

"In Lebanon, Hezbollah and Hamas have many thousands of missiles and unmanned aerial vehicles (UAV), some of them with precision guidance systems," Dr. Kedar wrote. "In Syria - 17 combat units ("militias") stand armed and ready: Liwa Fatemiyoun, the Zainebiyoun Brigade, the Harakat al-Nujaba, Hezbollah, the Abu Al-Fachal Brigade, Atsa'ab Ahl Al Haq, the Khorsani Brigade, and others. Iran transferred a very large number of missiles and UAVs to Syria and these are ready to be launched."

The bible predicts that these countries would come against Israel with the aid of Russia, Iran and Turkey. But their plans will be thwarted as God will intervene!

Now we know that America will not come to her rescue as we continue to diminish. China and Russia have convinced many countries to get off the dollar including Saudi Arabia. This is not good news for the USA. Then just this week...

Europe must resist pressure to become 'America's followers,' says Macron  
The 'great risk' Europe faces is getting 'caught up in crises that are not ours,' French president says in interview.

Europe must reduce its dependency on the United States and avoid getting dragged into a confrontation between China and the U.S. over Taiwan, French President Emmanuel Macron said in an interview on his plane back from a three-day state visit to China.

Speaking with POLITICO and two French journalists after spending around six hours with Chinese President Xi Jinping during his trip, Macron emphasized his pet theory of "strategic autonomy" for Europe, presumably led by France, to become a "third superpower."

So, guess what? You are on your own!

We also learned just yesterday of the arrest in the "Leaked Documents" case. Monkey made it clear to us that there is no way a 21-year-old part time guardsman would have the highest security clearance available. If this is true we are in bigger trouble than we can imagine!

In our own country we would then expect to see the growing persecution of the true Church

State of Oregon Denies Woman's Application to Adopt Based on Her Christian Faith

The state of Oregon is denying the application of a woman who wants to adopt because she is a Christian and will not agree to support gender transition if the child she adopts ends up being trans.

This is where the left has planned to take this argument from the start. It's a backdoor way to openly discriminate against people of faith.

They don't care about the welfare of children, they care about spreading their ideology.

What about this...

“They’ve Already Infiltrated the Church and Wanted to Go Even Futher. I Wonder If This Is Just the Beginning” – FBN Host Sean Duffy Admits to Attending Latin Mass, Slams Chris Wray for His Criminal Assault on Christians

On Monday news broke that Chris Wray’s FBI was running operatives inside Catholic parishes to spy on practicing Christians.

This is something the communists do in China and something we NEVER expected to see in America today. FBI agents are engaging in outreach to Catholic leaders to spy on Americans practicing their Christian faith.

This is an earth-shattering development in American history. We already knew the FBI-DOJ was targeting traditional Catholics. Now we have evidence they are infiltrating Catholic parishes.

Los Angeles LGBT Center to Host Drag Queen March with Honey Davenport on Easter Sunday to Mock Christians

On Easter Sunday the LGBT Center in Los Angeles is hosting a drag queen march in West Hollywood Park to mock Christians on their most blessed holiday.

The drag queen march will start at 10 AM in West Hollywood Park and will end at 1 PM. The event will include performances by Honey Davenport and Kerri Colby.

This is clearly an assault on the Christian faithful.

You think? We already see how far it's gone in Canada...

Pastor Derek Reimer Spends Easter in Jail After Arrest Over Drag Queen Events

After repeatedly protesting against drag queen storytime events in Alberta, Canadian pastor Derek Reimer was arrested again and spent his Easter weekend in jail.

According to Calgary Police, Reimer was arrested last Tuesday on outstanding warrants while protesting near a drag storytime event taking place in the city. Reimer faces five counts of breaching a release order, two counts of causing a disturbance, and one count of criminal harassment.

Calgary Police Service told The Epoch Times that the eight new charges involve incidents that took place between March 25 and April 2, and the incidents are being investigated as hate-motivated.

Reimer, the pastor of the street church ministry Mission 7, was first arrested by police following a Feb. 25 incident at the Seton Library in Calgary. Reimer was protesting a "Reading with Royalty" event at the library—which involved drag queens reading to children—before several men physically removed him.

Many will say we should not be involved that its none of our business. Are just supposed to ignore the grooming of kids? This is coming our way. Just look at this article...

New Bill Would Have California Parents Lose Parental Rights At Age 12

In California, "stranger danger" may be about to acquire a whole new meaning.

Forget warning kids. It's the parents in California who will need to be terrified of strangers if a new bill passes.

Snuck into AB 665, legislation ostensibly about extending mental health care to lower-income California youths, is a provision that effectively would terminate parents' rights over their kids as soon as they turn 12.

The California Family Council warns that this bill "would allow children as young as 12 years old to consent to being placed into state funded group homes without parental permission or knowledge."

As long as a mental health professional signs off on it, the kids can go to such a group home--and it doesn't matter what their parents think.

That's right! It doesn't matter what you think or believe. The government is always right don't you know. Just like it has over the last three years.

Now we see in this post by Adele that the newest addition to the alphabet soup is "Transage" can you at least act like your surprised.

Covid Battle Lines Moving from Emergency Room to Courtroom

Anti-government conspiracies and some recent court wins have spurred a boom of interest in Covid litigation.

The hotel receptionist pointed me through a swish, maximalist lobby to a conference room, where a Saturday morning crowd buzzed around in business attire over coffee and pastry trays. A smiling blond woman appeared suddenly in front of me — right in front of me — and asked how she could help. Her black t-shirt said "Misinformation Superspreader." Despite the message, she did point me in the right direction of the media registration table.

I didn't see a lot of other reporters at the Covid Litigation Conference, billed as the first-ever gathering of attorneys swapping tips on the growing practice of Covid-19 lawsuits.

The 275 people who registered for the two-day event in late March — attorneys, doctors, activists, and like-minded spectators — came from 38 states, Canada and Australia and paid \$600 apiece to listen to a long list of panelists who've earned a certain kind of fame, or notoriety, depending on whom you ask, for fighting government officials and the medical establishment.

Why are all these lawyers standing up for a conspiracy theory?

Doctors in Kentucky, California Received Millions in Bonus Payments for Vaccinating Medicaid Patients Against COVID

Documents reveal that the federal government and insurers incentivized healthcare providers in Kentucky and California to vaccinate Medicaid patients against COVID-19 by offering bonuses based on the percentage of patients successfully vaccinated.

For physicians who treated an Anthem Medicaid cohort with a minimum of 25 patients in their practice, Anthem Medicaid offered incentives for vaccination by Sept. 1, 2021, that ranged from a \$20 bonus per vaccinated person for physicians who vaccinated 30% of the cohort, to \$125 per vaccinated person for those who vaccinated 75% of the cohort, with several incremental steps in between.

As time went on, the rates increased.

Vaccine Shedding & Graphene Oxide: Secret Pfizer Documents & Studies prove Graphene is in the COVID Vaccines & Shedding is sadly occurring with Deadly Consequences

For over two years, concerned citizens around the world have been voicing their concerns about the safety of the novel Covid-19 mRNA vaccines. Yet, time and time

again, they have been dismissed and labelled as conspiracy theorists by the mainstream media and medical establishment.

However, recent developments have proven that these so-called conspiracy theories were, in fact, true all along.

Because confidential Pfizer documents, that the US Food and Drug Administration (FDA) attempted to delay the release of for 75 years, but were subsequently forced to publish by order of the US Federal Court; and various scientific studies have confirmed that the Pfizer Covid-19 vaccine does in fact contain a highly toxic substance known as Graphene Oxide.

A substance that is so toxic that it has and still is destroying red blood cells and forming strange blood clots.

Unfortunately, the same confidential Pfizer documents and various scientific studies also confirm that 'vaccine shedding' has been occurring. A process in which individuals who received the Covid-19 vaccine unintentionally shed the contents of it to others.

That's why we can put two and two together...

Lance Reddick Cause Of Death Disputed By Family Attorney

The family of actor Lance Reddick is taking issue with a coroner's conclusion on his cause of death.

Earlier reports linked Reddick's death to heart disease. But an attorney representing the family is saying that cause of death was not proved by an autopsy and is inconsistent with Reddick's habits and fitness.

Attorney James Hornstein claimed Reddick was "the most physically fit person I've ever known." He said the actor worked out daily at his home gym, doing extensive cardio and maintaining a strict diet. He said Reddick required "the availability of gym facilities" as a "contractual requirement" when working away from home.

And then this last week...

Earlier this week, A-List Hollywood actor "Jamie Foxx [was] rushed to the hospital after suffering a stroke," according to the headline of a TMZ story.

Foxx is currently in an Atlanta hospital recovering from his sudden and unexpected stroke. Sources with direct knowledge told TMZ the "beloved actor," 55, euphemistically suffered a "medical emergency" Tuesday morning and was immediately rushed to the

hospital. Thanks to rapid treatment, Foxx is reported to be improving and as of yesterday, even communicating again.

AI bot, ChaosGPT, tweets out plans to 'destroy humanity' after being tasked

Some questions are better left unanswered.

An artificial intelligence bot was recently given five horrifying tasks to destroy humanity, which led to it attempting to recruit other AI agents, researching nuclear weapons, and sending out ominous tweets about humanity.

The bot, ChaosGPT, is an altered version of OpenAI's Auto-GPT, the publicly available open-source application that can process human language and respond to tasks assigned by users.

In a YouTube video posted on April 5, the bot was asked to complete five goals: destroy humanity, establish global dominance, cause chaos and destruction, control humanity through manipulation, and attain immortality.

Before setting the "goals," the user enabled "continuous mode," to which a warning appeared telling the user that the commands could "run forever or carry out actions you would not usually authorize" and should be used "at your own risk."

Should any of us be concerned about alternative IA's out there? Nah! Nothing to see here!
