Ben Gvir scorns PM's objections as Jews seen praying on Temple Mount: 'It's my policy'

As worshipers prostrate themselves during minister's visit, Netanyahu pans breach of status quo, but Ben Gvir shrugs him off; outraged Haredim warn they may reconsider partnership

National Security Minister Itamar Ben Gvir on Tuesday dismissed Prime Minister Benjamin Netanyahu's insistence that Jewish prayer on the Temple Mount remains prohibited, repeating that it was his policy to allow the practice and eliciting outrage from Arab leaders as well as members of his own coalition.

The uproar began as Ben Gvir visited the Temple Mount on Tuesday morning to mark the solemn Jewish fast day of Tisha B'Av, which mourns the destruction of the Temples that once stood in Judaism's holiest site. Some of the Jewish visitors were filmed praying and prostrating themselves, in violation of police instructions.

The vague status quo governing the compound, the holiest site in Judaism and third-holiest in Islam, allows Muslims to pray and enter with few restrictions, while non-Muslims, including Jews, can visit only during limited time slots via a single gate. Visibly religious Jews are only allowed to walk on a predetermined route, closely accompanied by police.

First in 2000 Years: Silver Temple Trumpets Sounded on Temple Mount

On Tisha B'Av, the day commemorating the destruction of the Jewish Temples in Jerusalem, Josh Wander brought his silver trumpets specially made for use in the Temple to the Machkama building. Built about 700 years ago, it is currently used as

a Border Police station. The building faces the Western Wall Plaza but juts out over the Temple Mount.

Wander made the trumpets to fulfill the commandment of Chatzotzros. Wander's website explains that according to the Rambam, this is the Biblical commandment to blow the silver trumpets in times of war and trouble for the Jewish People.

After exhaustive research and under strict rabbinic supervision, Josh Wander, a resident of the Mount of Olives, has recreated the silver trumpets from Solomon's Temple. Josh blew these trumpets at the National Religious Broadcasters' Conference in Tennessee and at CPAC in Washington DC, both attended by Donald Trump. As mandated by the Bible, Josh blew the trumpets for the IDF troops as they went out to war against Hamas in Gaza.

According to IRNA's report on Wednesday night, British Foreign Secretary David Lammy wrote on his X social media post: "The UK strongly condemns Ben-Gvir's deliberately provocative visit to Jerusalem's Holy Sites".

The post further said that "such actions undermine the Hashemite Kingdom of Jordan's role as a custodian of the sites and longstanding Status Quo arrangements".

Meanwhile, Russia described the incident as "another provocative act" and expressed concern over an incursion by Ben-Gvir and Israeli settlers into Al-Aqsa Mosque in occupied al-Quds.

"The Israeli authorities should not limit themselves to condemning such actions, but must take effective measures to stop this evil practice," a Russian foreign ministry statement said, adding that such actions violate the existing status of the holy places as was stipulated in a treaty between Jordan and Israel in 1994.

US officials say Iran attack 'potentially soon, without notice'

"We truly don't know if they will do it, when they will do it, and with what force they will do it. We don't have firm answers for all of that right now," top administration official tells the WSJ.

The United States is intensifying efforts to prevent a potential Iranian attack on Israel, as tensions in the region reach a critical point, according to reporting from the Wall Street Journal. The Biden administration is grappling with the challenge of containing Iran's actions, which could surpass the scale of its April missile and drone assault on Israel.

US officials have issued stern warnings to Tehran, both directly and through intermediaries, about the severe consequences an attack on Israel could have for Iran's government and economy. The situation has put both nations in a precarious position, with neither seeking this escalation but now forced to navigate the possibility of a broader conflict.

"We truly don't know if they will do it, when they will do it, and with what force they will do it. We don't have firm answers for all of that right now," a senior administration official told the WSJ. "But we believe an attack of some sort could very well come, potentially soon and without much notice."

**As Massive Cyberattack Cripples Iran Banks; Khamenei Vows 'Divine Wrath' If Iran Backs Down From Attacking Israel**

With Israel continuing to await the promised Iranian retaliatory attack for the alleged Israeli assassination of Hamas leader Ismail Haniyeh in Tehran two weeks ago, most media coverage has focused on Iran's blustering threats and Israeli preparations.

The Iranian regime appears indecisive and is facing internal criticism, with the new government already showing signs of disarray, even before a massive cyberattack reportedly crippled the nation's banking system on Wednesday.

According to opposition news outlet Iran International, the cyberattack significantly disrupted the operations of the Central Bank of Iran and other financial institutions, shutting down all computer systems. The attack was described as one of the largest-ever on Iran's state infrastructure.

FINAL WARNING on Calvary Chapel Costa Mesa Leadership

Calvary Chapel Costa Mesa [hereafter CCCM] – The ‘Mothership’ of the Calvary Chapel movement - once the fortress of solid biblical teaching – is in danger of finally going completely off the rails into contemplative mysticism. CCCM was taken over (under questionable circumstances) by Chuck Smith's son-in-law Brian Brodersen in 2013, after Pastor Chuck's passing. Under Brian's leadership, the church has been increasingly involved in ecumenical and otherwise aberrant events and programs. Brian's endorsement of many false teachers, and partnerships with aberrant churches is well documented.

In January 2021 – Brian's son, Char (Charles) Brodersen came on staff at CCCM as an “Associate Pastor”. In January 2023 Brian made him “Co-Senior Pastor.” – indicating that he will take the reigns from Brian when he turns over the keys to the kingdom.

Char was formerly the lead pastor of Refuge Christian Fellowship in Santa Rosa, CA. Refuge was not a Calvary affiliate, but a member of the ‘New Calvinist’ Gospel Coalition.

Pro-Hamas group received funding from Tim Walz as governor of Minnesota

Vice presidential nominee Tim Walz gave an extreme Muslim cleric's group \$100,000 of public funds and has hosted him at official events as governor of Minnesota, The Washington Examiner reported Friday.

Asad Zaman has been a mouthpiece for Hamas for many years, publicizing its propaganda on his social media.

On October 7th, the day the terrorist organization invaded Israel, massacring 1,200 people, including infants, and abducting some 250 to hold as hostages, the imam said that he "stands in solidarity with Palestinians against Israeli attacks."

Citing Kuwaiti paper, 'Jerusalem Post' claims US leaked names of Mossad agents in Iran to Tehran

"I think the Iranian sourcing for the report is disinformation aimed to increase polarization in the U.S. as well as fissures between Israel and the U.S.," said Jason Brodsky, policy director at United Against Nuclear Iran.

The Biden administration leaked the names of 10 Mossad agents operating in Iran to Tehran as part of a "'good faith' initiative in response to Israel's strikes, which were carried out without American coordination," the Jerusalem Post reported, citing anonymous sourcing from a Kuwaiti paper and immediately drawing skeptical responses from experts.

"There's a report from Al-Jarida making the rounds with a story about a secret trip by U.S. officials to Iran that I do not believe," wrote Jason Brodsky, policy director at United Against Nuclear Iran. "I think the Iranian sourcing for the report is disinformation aimed to increase polarization in the U.S. as well as fissures between Israel and the U.S."

“I pray this is not true,” wrote Sen. Ted Cruz (R-Texas) of the report. “If Joe Biden and Kamala Harris actually gave the ayatollah the names of undercover Mossad agents in Iran ... it would be a level of betrayal of Israel (and America) difficult to fathom.”

Britain Is Proof: Globalists Plan To Use Migrants As A Mercenary Army Against The West

Why do western officials insist on gaslighting the public on illegal border crossings? Why do they attempt to destroy anyone that publicly opposes mass immigration from the third world? The laws on the books support the public’s majority position on immigration – Come here legally or don’t come here at all. In Europe, the UK and the US polls show a majority of citizens want reductions in immigration and better border security. Yet, government officials, who often claim to be “protecting democracy,” brazenly ignore these majority concerns. Why?

For many years now I have offered a specific theory on the true agenda behind open border policies in western countries and I believe this theory answers most of questions surrounding illegal immigration.

I have mentioned this in previous articles and I continue to believe that one of the main purposes for the establishment to leave borders open and entice illegals to enter is to create a migrant army; a situation in which millions of illegals will be offered easy citizenship in exchange for service. I also believe that this migrant army will be used against the American public (the real citizenry) to impose martial law measures in the wake of a national disaster...”

Think about it – They are essentially bought and paid for. They are mercenaries recruited with offers of easy citizenship, government handouts and the opportunity to brutalize the very western (and generally white) populations they despise. And, they are allowed to do this while hiding behind government law enforcement agencies for protection.

With a two tier policing system in place, the migrants can do whatever they want without much fear of repercussions. In Europe there is the added problem of

expanding Islamic immigration which is directed by religious doctrine to conquer non-believers. From the Quran:

Quran [9:29] Fight those who do not believe in Allah or in the Last Day and who do not consider unlawful what Allah and His Messenger have made unlawful and who do not adopt the religion of truth from those who were given the Scripture – [fight] until they give the jizyah willingly while they are humbled.

Third world migrants are hired muscle for the political elites. They can terrorize the populace, and if the native population takes action to defend itself the government can step in, call them hateful racists and declare martial law. It's a win-win. The migrants then help with the enforcement of that martial law as the government doubles down on two-tier policing.

UK's crackdown on free speech in light of migrant crisis a harbinger of things to come in U.S.

Do not be fooled, the globalist game plan unfolding in the U.K. is the same plan they have for the United States of America. It all revolves around weaponized immigration.

Schools in the United Kingdom will begin teaching students about so-called "misinformation" and the dangers of "extremist content" as the nation continues to devolve into violent street riots fueled by Islamic migrants.

According to Fox News, the new initiative will indoctrinate students on how to discern real information from fake news, by embedding "critical thinking" into the school curriculum, including English and math classes.

Not actual critical thinking, mind you, just thinking that's critical of the truth. A better word for it would be brainwashing or sensitivity training.

They wouldn't want young Brits to grow up and be like the 61-year-old English man who was just sentenced to 18 months in prison for questioning the authority of Allah. Such indiscretions cost him his freedom for the next year and a half.

On July 31 at a protest outside of Downing Street, David Spring, a lifelong British citizen, pointed his finger at police and yelled "who the f\*\*k is Allah?" He then told the officers they are "no longer English."

Zero Hedge reports that the punishment meted out to Mr. Spring is the latest "shocking example of how low the bar has now been set in terms of free speech in response to rioting that occurred after the murder of three girls in Southport last month."

That's why Bridget Phillipson, the Secretary of State for Education and Minister for Women and Equalities, stated recently with regard to the new sensitivity training for British students:

"It's more important than ever that we give young people the knowledge and skills to be able to challenge what they see online. That's why our curriculum review will develop plans to embed critical skills in lessons to arm our children against the disinformation, fake news and putrid conspiracy theories awash on social media." Phillipson explained the emphasis on "misinformation" would be embedded in all aspects of the core curriculum. For example, English classes will focus on the language used by "real" articles and "fake" stories, while computer classes will separate websites that are considered legitimate from those that are considered "biased." Official state-run media channels like the BBC, of course, are never biased in their reporting.

One British citizen received a 20-month prison sentence for a post to Facebook that did nothing but state facts. **Watch the judge explaining the sentence below.**

Harris Campaign Teams Up With Google To Fake Endorsements, Edit News Headlines

Mainstream media outlets have been running cover for Democrats for years, but now a top Democrat is faking endorsements from prolific newspapers and networks. According to multiple reports, Vice President Kamala Harris’s campaign has been editing Google ads to give the impression that major media outlets are endorsing or supporting her policies and presidential campaign. The Harris campaign has attached its ads to news sources which appear in Google searches and edited the attached text to make it appear as though the targeted news sources are supporting the Harris campaign, although once the links are clicked, they redirect internet users to the original news articles.

Axios reported that “the ads mimic real news results from [Google] Search closely enough that they have news outlets caught off guard.” It further noted, “The ads say that they are sponsored, but it’s not immediately clear that the text that accompanies real news links is written by the campaigns and not by the media publication itself.”

WHO declares 2024 mpox surge a 'public health emergency of international concern'

The World Health Organization has declared mpox a public health emergency of international concern. Cases of mpox — previously called monkeypox — have been surging in the Democratic Republic of Congo. In recent weeks, cases have appeared in nearby African countries, including several that have never reported mpox cases before.

"What we're seeing is tip of the iceberg" because of weaknesses in the surveillance system, says Dr. Dimie Ogoina, the chair of the emergency committee convened by WHO and an infectious disease physician at Niger Delta University in Nigeria.

"This is something that should concern us all," says WHO's director-general, Tedros Adhanom Ghebreyesus.

Canadian government warns country to prepare for new virus far worse than COVID

The Canadian government has issued advice warning citizens to prepare for a hypothetical new virus that could lead to food and fuel disruptions.

The Centre for Occupational Health and Safety rolled out a second edition of their Flu and Infectious Disease Outbreaks Business Continuity Plan Handbook.

The guide provides information for employers on what to prepare for in the face of another pandemic.

In the new edition, released in June, they focus on a 'hypothetical virus', that they warn could trigger further disruption than Covid-19.

It states that 'based on trends from past pandemic flu, there may be a higher average number of illness and deaths in age groups different than what we typically see during annual flu seasons.'

<https://thenewamerican.com/featured/gates-backed-forces-behind-covid-tyranny-injections-prep-for-next-pandemic/>

Gates-backed Forces Behind Covid Tyranny & Injections Prep for “Next” Pandemic

The same forces and globalist organizations involved in the Covid-19 injections and the unprecedented global tyranny imposed under the guise of fighting the virus are preparing for a potentially catastrophic H5N1 Avian Influenza “bird flu.” Prominent doctors and critics are already sounding the alarm.

Just last month, the Coalition for Epidemic Preparedness Innovations (CEPI) joined forces with the far-left Brazilian government to quietly host the Global Pandemic Preparedness Summit in Rio de Janeiro. The goal: war game and urge governments

to prepare for the next pandemic in partnership with global health “authorities” and Big Pharma.

Speakers, including self-styled “public-health experts,” warned that new “vaccines” would have to be developed and deployed within 100 days of an outbreak, and that even people in poorer nations would have to be injected. They hope to have the jabs on the shelf ready to go for whatever real or imagined boogeyman may be lurking.

Participants also claimed alleged man-made “climate change” was helping fuel the threat. The allegations echo claims made by global “public health” leaders arguing that everything from gun violence and racism to global warming are “public-health” emergencies requiring urgent action.

<https://libertysentinel.org/schools-must-prep-for-bird-flu-injections-tyranny-obama-health-bureaucrat/>

Schools Must Prep for Bird Flu Injections & Tyranny: Obama “Health” Bureaucrat

Government schools across the United States must “urgently” prepare to re-impose COVID-style policies on students and staff in response to an expected upcoming pandemic, warned a former high-ranking “public-health” bureaucrat in the Obama administration. Among the key measures: A push for mass vaccination.

Writing in an article published last month in the left-wing outlet STAT News, the far-left former pandemic official offers wide-ranging advice to school district officials on how to prepare for COVID 2.0 – in this case, likely Bird Flu, or H5N1 Avian Influenza.

Dr. Mario Ramirez, former acting director of the Office of Pandemic and Emerging Threats within the Department of Health & Human Services (HHS), warned that the H5N1 Avian Influenza could “jump to humans” in the near future. As such, schools must prepare to deal with it.

The warnings come as a front group for Bill Gates, Big Pharma, and the World Economic Forum known as the Coalition for Epidemic Preparedness Innovations (CEPI) just issued similar warnings.

At a summit last month, CEPI, which basically wrote the script for COVID response in its 2017 business plan, called on governments and international “health authorities” to get ready for mass vaccination ahead of “disease X.”

Meanwhile, the World Health Organization is convening an emergency meeting to consider declaring a public health emergency of international concern. And an “International Bird Flu Summit” in D.C. in October will prep for “mass fatality management planning” and delivery of “vaccines,” according to its website.

Scientists: Real-Time Self-Assembly Structures Revealed In 2-Year Study Of Pfizer And Moderna Covid-19 Shots

This is a first-of-its-kind, pivotal study on the self-assembly structures occasionally observed by others since 2021. It blows the top off of the “Safe and Effective” narrative, exposing it not just as a lie but also as an intentional deception to hide the real contents of the shots. After all, the shots were billed as containing mRNA, which is considered to be synonymous with gene therapy. Indeed, mRNA was found to be present, but not one word was ever mentioned about artificial, non-biological, self-assembling structures.

## Inside Worldcoin's Orb Factory, Audacious and Absurd Defender of Humanity

The startup, co-founded by Sam Altman, is determined to verify every human on Earth, one iris at a time.

To achieve that not-so-modest goal, Tools for Humanity wants to create a global identity system for humans. The thinking is that artificial intelligence is improving so quickly that we soon will—or may already—need a way to separate humans from machines. In other words, to prevent supersmart AIs from flooding the internet with deepfakes, scams and the propaganda of their choosing, we must have a way to answer the modern existential question: bot or not? And this is where the Orb comes in. It takes images of people's irises under the supervision of a human Orb associate and grants them a unique World ID, which certifies that a real person belongs to a string of characters the machine generates. You might then use your World ID to log in to Shopify or Reddit or a Discord server, and everyone can feel safer knowing they're dealing with an actual, fleshy human and not an AI.

## Metaphysical Experiments' Probe Our Hidden Assumptions About Reality

Experiments that test physics and philosophy as “a single whole” may be our only route to surefire knowledge about the universe.

Metaphysics is the branch of philosophy that deals in the deep scaffolding of the world: the nature of space, time, causation and existence, the foundations of reality itself. It's generally considered untestable, since metaphysical assumptions underlie all our efforts to conduct tests and interpret results. Those assumptions usually go unspoken.
