

## Part 1: Walk This Way

### Discussion Questions

1. What is a time in your life you haven't paid enough attention to something that needed it? How did that go?
2. When you hear "We are all being formed..." what comes to mind? Do you notice things in your life forming you?
3. Jason talked about 2 traps that can lead us away from the way of Jesus... the first is the trap of the way of the world, which re-orientes our desires. If you're ready to be honest... have you noticed a tendency in yourself to *follow in the way of* your emotions, desires, or your self? How has that effected the way you make decisions? How has it worked?
4. The second trap is the way of religion which baits us into only worrying about what's on the outside. How have you seen "worrying about the outside" in your own life?
5. The way of Jesus is an invitation to quite literally follow in the way of Jesus. Step one is to re-orient our values by placing Jesus at the center. How could you practically begin shifting Jesus to the center of your values?
6. Share with whoever you are discussing this with some ways you can begin to walk in the way of Jesus this week.

### Going deeper:

Following Jesus isn't a one time thing, it's a daily decision to walk in the way of Jesus. What if this week you started each day with a simple prayer... "Jesus, help me follow in your way today."
