• WHAT I •

PREACH

Following Jesus is complicated. We all need help figuring it out and sticking with it.

Discussion Questions:

1. Was it taught or modeled to you that the only part of your faith that matters is the relationship between you and God? Or was how you treated others just as important of an aspect?
2. Have you made real friends at our church? If so, who are they? What impact have they had on your life? If not, what challenges do you face when it comes to connecting with others at our church?
3. If you're not in a small group, how could being part of one benefit you? If you are in one, what difference do you feel like it's made? If you're new to a group, what difference do you want it to make?
4. What's an intentional step you need to take in order to build or maintain meaningful relationships?

MOVING FORWARD:
