

Love Gone Cold | Revelation 2:1-7

Pastor Bryan Walmer

April 26, 2026

Love doesn't tend to stop overnight. It tends to grow cold over time.

You can be theologically right and spiritually wrong.

Jesus' Compliment

Churches are meant to be lights to the world.

It is good to be theologically and morally solid.

Jesus' Critique

It's really important to not let our love for Jesus and others grow cold.

You can tell your love is drifting when your relationship is more duty than it is delight.

When this happens in a church, the risk becomes losing the lampstand.

Jesus' Correction

Remember - Think back to when your love for Jesus was most alive.

Repent - Turning from sin back towards the person of Jesus.

Return - Go back to the practices that flowed from love.
