Our perspective on poverty and riches needs to be biblical.

The Biblical Perspective on Poverty and Riches according to James (James 1:9-11)

Worldly perspective sees riches as the key to life. Biblical perspective sees it keeping us away from life.

We should boast in situations that allow us to yearn for our future exaltation.

Your economic situation does not determine your spiritual situation.

The more you have, the easier it is to drift from Jesus.

The right perspective: Proverbs 30:8-9

How to tell your perspective. (James 1:26)

What do you use to boast?

What you say about riches and poverty tells you a lot about your perspective.

What to do with the biblical perspective.

Keep yourself stain-free from earthly perspective.

Care for those less fortunate than you.
